Investment Priorities

Recommended Priorities for the Next Two Years. In order to help the Unified Government identify investment priorities for the next two years, ETC Institute conducted an Importance-Satisfaction (I-S) analysis. This analysis examined the importance that residents placed on each service and the level of satisfaction with each service.

By identifying services of high importance and low satisfaction, the analysis identified which services will have the most impact on overall satisfaction with City and County services over the next two years. If the Unified Government wants to improve its overall satisfaction rating, they should prioritize investments in services with the highest Importance Satisfaction (I-S) ratings. Details regarding the methodology for the analysis are provided in the Section 3 of this report.

Based on the results of the Importance-Satisfaction (I-S) Analysis, ETC Institute recommends the following:

- **Overall Priorities for the City by Major Category.** The first level of analysis reviewed the importance of and satisfaction with major categories of City services. This analysis was conducted to help set the overall priorities for the City. Based on the results of this analysis, the major services that are recommended as the top priorities for investment over the next two years in order to raise the City’s overall satisfaction rating are listed below in descending order of the Importance-Satisfaction rating:
  
  o Quality of maintenance of City streets
  o Quality of storm water runoff/management system
  o Quality of communication with the public
  o Quality of public transportation
  o Quality of code enforcement

- **Overall Priorities for the County by Major Category.** The second level of analysis reviewed the importance of and satisfaction with major categories of County services. This analysis was conducted to help set the overall priorities for the County. Based on the results of this analysis, the major services that are recommended as the top priorities for investment over the next two years in order to raise the County’s overall satisfaction rating are listed below in descending order of the Importance-Satisfaction rating:
  
  o Quality of motor vehicle registration
  o Quality of the Area Agency on Aging Services
  o Quality of Public Health Department services
  o Quality of services for developmental disabilities
  o Quality of customer service provided by Unified Government employees
• **Priorities Within Departments/Specific Areas:** The third level of analysis reviewed the importance of and satisfaction of services within departments and specific service areas. This analysis was conducted to help departmental managers set priorities for their department. Based on the results of this analysis, the services that are recommended as the top priorities within each department over the next two years are listed below:

  o **Public Safety:** City’s overall efforts to prevent crime, visibility of Code Enforcement in neighborhoods, quality of animal control in neighborhoods, and the visibility of police in neighborhoods.
  
  o **City Codes and Ordinances:** Enforcing the clean-up of litter and debris (blight) city-wide, enforcing mowing and trimming of weeds on private and/or vacant property city-wide, enforcing clean-up of junk, trash and debris (blight) in neighborhoods, enforcing mowing and trimming of weeds on private and/or vacant property in neighborhoods, and enforcing maintenance of residential property (houses) in neighborhoods.
  
  o **City Maintenance Services:** Maintenance of streets, sidewalks, and curbs in neighborhoods, snow removal on neighborhood streets, and maintenance of major City streets.
  
  o **Parks and Recreation:** Number of walking and biking trails, swimming pool and spray parks, and youth recreation programs.
Section 1:
Importance-Satisfaction Analysis
Importance-Satisfaction Analysis
Kansas City, KS/Wyandotte County

Overview

Today, city and county officials have limited resources which need to be targeted to activities that are of the most benefit to their citizens. Two of the most important criteria for decision making are (1) to target resources toward services of the highest importance to citizens; and (2) to target resources toward those services where citizens are the least satisfied.

The Importance-Satisfaction (IS) rating is a unique tool that allows public officials to better understand both of these highly important decision making criteria for each of the services they are providing. The Importance-Satisfaction rating is based on the concept that cities will maximize overall citizen satisfaction by emphasizing improvements in those service categories where the level of satisfaction is relatively low and the perceived importance of the service is relatively high.

Methodology

The rating is calculated by summing the percentage of responses for items selected as the first, second and third most important services for the City or County to emphasize over the next two years. This sum is then multiplied by 1 minus the percentage of respondents that indicated they were positively satisfied with the City or County’s performance in the related area (the sum of the ratings of 4 and 5 on a 5-point scale excluding “don’t know” responses). “Don't know” responses are excluded from the calculation to ensure that the satisfaction ratings among service categories are comparable. [IS=Importance x (1-Satisfaction)].

Example of the Calculation. Respondents were asked to identify the overall Kansas City, KS services they thought were the most important for the City to provide. Approximately sixty-six percent (65.5%) of residents selected the “quality of maintenance of City streets” as one of the most important major services to provide.

With regard to satisfaction, twenty-seven percent (26.5%) of the residents surveyed rated their overall satisfaction with the “quality of maintenance of City streets” as a “4” or a “5” on a 5-point scale (where “5” means “very satisfied”). The I-S rating for “quality of maintenance of
City streets’ was calculated by multiplying the sum of the most important percentages by 1 minus the sum of the satisfaction percentages. In this example, 65.5% was multiplied by 26.5% (1-0.735). This calculation yielded an I-S rating of 0.4814, which ranked first out of fifteen major City services.

The maximum rating is 1.00 and would be achieved when 100% of the respondents select an item as one of their top three choices to emphasize over the next two years and 0% indicates that they are positively satisfied with the delivery of the service.

The lowest rating is 0.00 and could be achieved under either one of the following two situations:

- if 100% of the respondents were positively satisfied with the delivery of the service
- if none (0%) of the respondents selected the service as one of the three most important areas for the City to emphasize over the next two years.

Interpreting the Ratings

Ratings that are greater than or equal to 0.20 identify areas that should receive significantly more emphasis over the next two years. Ratings from .10 to .20 identify service areas that should receive increased emphasis. Ratings less than .10 should continue to receive the current level of emphasis.

- Definitely Increase Emphasis (IS>=0.20)
- Increase Current Emphasis (0.10<=IS<0.20)
- Maintain Current Emphasis (IS<0.10)

The results for District 3 are provided on the following page.

Note: The I-S Rating is calculated by multiplying the "Most Important" % by (1- "Satisfaction" %)

**Most Important %:**
The "Most Important" percentage represents the sum of the first, second and third most important responses for each item. Respondents were asked to identify the items they thought should receive the most emphasis over the next two years.

**Satisfaction %:**
The "Satisfaction" percentage represents the sum of the ratings "4" and "5" excluding 'don't knows.' Respondents ranked their level of satisfaction with each of the items on a scale of 1 to 5 with "5" being very satisfied and "1" being very dissatisfied.

Section 3: Tabular Analysis
Commission District 3

Q18. The Unified Government has a dangerous dog ordinance to make the community safe for people and pets in the most comprehensive way possible. The Unified Government's current dangerous dog ordinance currently bans "pit bulls". The Unified Government could amend the current dangerous dog ordinance to hold owners accountable for the behavior of their dogs regardless of the dog's breed. Would you support this change?

<table>
<thead>

Section 4:
Survey Instrument
18. The Unified Government has a dangerous dog ordinance to make the community safe for people and pets in the most comprehensive way possible. The Unified Government’s current dangerous dog ordinance currently bans “pit bulls”. The Unified Government could amend the current dangerous dog ordinance to hold owners accountable for the behavior of their dogs regardless of the dog’s breed. Would you support this change?

(1) Yes (The law should be expanded to hold owners responsible for the behavior of all dog breeds.)
(2) No (The law should continue to apply to pit bulls only.)

19. Should female/hen chickens (no males/roosters) be allowed in backyards not zoned for agricultural purposes?

(1) Yes    (2) No

19-2. [IF YES to #19] How many female chickens should be allowed in backyards?

(1) 1 to 6    (2) 7 to 12    (3) 13 to 20    (4) 21 or more chickens
(9) Don’t know

20. Do you routinely shop at the Wal-Mart in Argentine?    (1) Yes    (2) No

20-2. [IF YES to #20] How many times per month?    ____________

21. Do you routinely shop at the Save-A-Lot in Argentine?    (1) Yes    (2) No

21-2. [IF YES to #21] How many times per month?    ____________

22. Do you currently live in Belrose Manor?    (1) Yes    (2) No

22-2. [IF YES to #22] Would you like to live somewhere else?    (1) Yes    (2) No

23. Do you currently live in Rosedale Towers?    (1) Yes    (2) No

23-2. [IF YES to #23] Would you like to live somewhere else?    (1) Yes    (2) No

24. The Housing Authority has responsibility over low income housing like Belrose Manor and Rosedale Towers. As the Housing Authorities properties continue to age, increasing maintenance costs are becoming a significant issue. How would you like the Housing Authority address the issues stated above? (Choose one.)

(1) Continue to invest in these properties regardless of the cost
(2) Sell one or both of these properties and relocate residents to other low income housing options

If you answered “SELL” the properties, how would you like to see these properties redeveloped?

25-1. How would you like to see Belrose Manor Redeveloped?

(1) New Housing (fair market prices)    (2) New Retail
(3) Other: ________________________    (9) Don’t know

25-2. How would you like to see Rosedale Towers Redeveloped?

(1) New Housing (fair market prices)    (2) New Retail
(3) Other: ________________________    (9) Don’t know
