\*\*\*Data suppressed per KDHE Bureau of Public Health Informatics guidelines. Counts less than 6 are suppressed as well as where the difference between any individual table cell and the table total is less than 10. Further, multiple cells may be suppressed due to being able to calculate a number of one missing field using the total for that category.

Note: Birth totals for each year may be lower than actual number of births. This deficit is due to missing census tract and race/ethnicity data.
