\*Total births may be more than the sum of births by race. This is due to individuals who indicated they were of some "other" race or others who did not provide race information.

\*\*\*Data suppressed per KDHE Bureau of Public Health Informatics guidelines. Counts less than 6 are suppressed as well as where the difference between any individual table cell and the table total is less than 10.

Note: In 2005 the Kansas birth certificate was modified and began accepting expanded race & ethnicity data. Care should be taken when comparing 2005 and later birth data with prior years.
