The attached tables summarize 2007 residential and non-residential building permit activity by permit type and month for Kansas City, Kansas. The table below compares summary totals for 2000 through 2007. This report includes only permits issued for new construction, repairs and alterations.

The residential and non-residential construction value exceeded $148 million in 2006, with new residential development representing 31% of this figure. In 2007, permits were issued for 333 new single-family units. Although this total was below the 2006 figure of 466 units, Kansas City continued to remain among the top five cities in the metropolitan area in terms of new single-family housing starts.

The total count of new residential units, for 2007, was 376 units, including a conversion of the former Northeast Middle School to apartment units. Figures 1 and 1A display the location of the residential permits.

Commercial development continued to be strong in 2007, as permits were issued for a number of the stores in the Legend’s shopping area. Significant construction developments in 2007 included: two new motels near or within Village West (a Country Inn and Candlewood Suites); a new First State Bank at 109th and Parallel; a complex of facilities for the Salvation Army at 65th and State; a new office building at the Gateway location at 4th and State Av.; an industrial building on S. 5th St. in the Armourdale District; a office/warehouse developed by Dean Realty at 2600 Bi State Dr.; and an initial site improvement for Plaza at the Speedway, immediately west of I-435 on Parallel Parkway. A detailed listing of non-residential permits appears in Table 3 of this report.
