Fireworks Safety Tips from the U.S. Fire Administration

- The best way to enjoy fireworks is to visit public fireworks displays put on by professionals who know how to safely handle fireworks.
- If you plan to use fireworks, make sure they are legal in your area.
- Never light fireworks indoors or near dry grass.
- Always have a bucket of water and/or a fire extinguisher nearby. Know how to properly operate the fire extinguisher.
- Do not wear loose clothing while using fireworks.
- Stand several feet away from lighted fireworks. If fireworks do not go off, do not stand over them to investigate; douse them with water and carefully dispose of them.

Supervise children around fireworks at all times.
