1 PURPOSE, SCOPE, POLICIES/AUTHORITIES

1.1 Purpose

The purpose of the ESF 7 Logistics and Resources Annex is to establish how logistics and resources activities will be coordinated to meet the needs generated by disasters affecting Wyandotte County.

1.2 Scope

This annex identifies key policies, concepts of operations, capabilities and roles and responsibilities associated with ESF 7 in Wyandotte County. ESF 7 applies to all individuals and organizations, and the full range of logistics and resources activities that may be required to support disaster response and recovery operations in Wyandotte County.

Effective response to any emergency or disaster requires the ability to find, obtain, allocate, and distribute resources to meet the needs of the event. This Emergency Support Function (ESF) Annex provides guidance to assist in coordinating the provision of personnel, equipment, supplies, facilities and services to support emergency operations. Specifically, ESF 7 addresses:

- Resource identification;
- Resource procurement;
- Resource coordination;
- Facilities and logistics;
- Personnel augmentation;
- Logistics management; and
- Volunteer and donations management.

1.3 Policies/Authorities/Guidelines

The following local, regional, state and federal authorities and guides apply to this ESF 7 Annex.

Local

- [Unified Government Code of Wyandotte County/Kansas City, Kansas, Chapter 29, Procurement;](#)
- [Unified Government Code 3-106, Sec 29-157 Emergency Procurement;](#)
- [Wyandotte County – Unified Government, Kansas – Code of Ordinances / Chapter 12 – Emergency Management and Emergency Services;](#)

Regional

- [Mid-America Regional Council \(MARC\) Regional Coordination Guide for ESF 7.](#)

State

- [Executive Order 05-03, Use of the National Incident Management System \(NIMS\);](#)
- [Kansas Statutes Annotated \(KSA\), 48-9a01, Emergency Management Assistance Compact \(EMAC\);](#)
- [KSA 48-904 through 48-958: as amended, State and County Emergency Management Responsibilities;](#)
- [Kansas Response Plan, 2017.](#)

Federal

- [Title II of the Americans with Disabilities Act;](#)
- [National Response Framework;](#)
- [Homeland Security Presidential Directive – 5: Management of Domestic Incidents;](#)
- [Presidential Policy Directive – 8: National Preparedness;](#)
- [Comprehensive Planning Guide \(CPG\) 101.](#)

2 CONCEPT OF OPERATIONS

This section provides a narrative description summarizing the Concept of Operations for the following ESF 7 activities: 1) Command, Control, and Notification, 2) Credentialing, 3) Resource Directories, 4) Resource Request and Management, 5) Volunteer and Donations Management, 6) Tracking Resources, 7) Emergency Contracting, and 8) Considerations for Access and functional Needs Populations and Children.

2.1 Command, Control, and Notification

When Emergency Management is notified of an event that requires the activation of the Emergency Operations Center (EOC), the Emergency Management Director, in consultation with the County Administrator, and emergency management staff will determine which ESF's are required for activation in support of emergency operations. If it is determined that ESF 7 will be activated, the Emergency Management Director will contact the designated Coordinating Agency for ESF 7 to report to the Emergency Operations Center (EOC) to attend an initial briefing regarding the situation.

The ESF 7 Coordinator is from the Unified Government Finance Department. The ESF 7 Coordinator is responsible for contacting the primary and support agencies with liaison roles including adjacent counties and the State and briefing them on the situation. The ESF 7 Coordinator will provide departments with the designated methods/timeframes for submitting data/information and updates to the EOC regarding processes and protocols.

The ESF 7 Coordinator will manage the collection, processing, and dissemination of ESF 7-related information to and from the EOC. WebEOC will be utilized as the preferred method to disseminate information. Other information will be closely coordinated through the EOC Data and Technology Coordinator to ensure necessary ESF 7 information is disseminated to the EOC staff.

Wyandotte County Emergency Management (WYCO EM) is responsible for providing initial notification for all county and ESF partners. The WYCO EM will utilize their Everbridge system to do notifications. If the system is down, the department will make phone calls to ESF partners and county agencies.

2.2 Credentialing

Wyandotte County is implementing the Resource Manager Credentialing System that is a part of the Comprehensive Resource Management and Credentialing System (CRMCS) developed by the Kansas Division of Emergency Management. This system

is web-based and can be used for on-scene and off-scene accountability and can be coordinated through WebEOC.

Currently, the Unified Government Security Office has the responsibility for the credentialing/badging system in place for all Unified Government employees. Bonner Springs and Edwardsville also have their own in-house credentialing/badging systems in operation. With these systems, all city and county government employees have their credentials on file and badges to gain access to limited access sites.

For vendors and transport companies that are hired to support ESF 7, ESF 7 Coordinators will work closely with ESF 13 and law enforcement officers conducting perimeter control to communicate which service providers should have access to limited access sites. In these instances, personnel of vendors and transport companies will display their CRMCS badges provided by the EOC.

For non-affiliated volunteers, badges will be made at the Volunteer Reception Center (VRC). For affiliated volunteers, current badging systems utilized by the volunteer agency will be accepted. If no badges are utilized, volunteers will be directed to the VRC to have a badge made. Credentials for public health emergencies/incidents will not be created at the VRC as these credentials are pre-positioned and will be supplied by the Public Health Department.

2.3 Resource Directories

The types and amounts of resources needed to support emergency operations will vary greatly depending on the event. Some examples of typical emergency resources include, but are not limited to:

- Vehicles
 - Passenger, cargo, and debris removal
- Personnel
- Facilities
- Staging Areas for internal and external response
- Equipment
 - Communications equipment
 - Pumps and sandbags
- Heavy equipment for public works applications (e.g., cranes and front loaders) and materials handling (e.g., forklifts and pallet jacks)
- Materials and tools such as plastic sheeting, shovels, picks, chain saws, axes/hatchets, flashlights, etc.
- Mass care supplies such as food, bedding, blankets, and cots

- Industrial lighting equipment
- Portable generators
- Medical supplies and pharmaceuticals
- Equipment operators
- Suppliers/Contractors/Vendors
- Services/Contracts/Mutual Aid Agreements
- Potable water
- Portable toilets and other sanitation supplies
- Fuel and fueling stations
- Technology to support emergency operations
- Critical facilities with priority for restoration
- Utility providers
- Resources in adjacent jurisdictions that could be used during a disaster

Addendum 3 provides a directory of resource inventories and the contact information to obtain each inventory.

2.4 Resource Request and Management

Once ESF 7 is activated, all departments and agencies involved in the emergency response will be instructed to direct any resource needs they are unable to meet through their own channels to the EOC Resources Unit Leader. The Incident Command and General Staff will identify the resources required in the field and relay requests to the EOC. Initial requests will likely be relayed through the Public Safety Communications Unit (9-1-1 Call Center). As emergency operations continue, and if possible, resources will be requested through WebEOC or other written formats. The Resources Unit Leader will work with the EOC to rapidly assess emergency resource requests and recommend actions to acquire the necessary supplies, equipment and personnel.

Wyandotte County is fortunate to have access to considerable resources (i.e., equipment, personnel, facilities and supplies) to support most emergency operations. In general, Wyandotte County's emergency response agencies are capable of sustaining themselves during the first 24 hours of an event. However, a major emergency or one requiring specialized resources may require resource support from outside the County. Wyandotte County maintains intergovernmental mutual aid agreements with other jurisdictions to assist in procuring emergency resources and supplies. Additionally, agreements that can be activated in emergencies are in place with private sector vendors and suppliers. When time permits, the Resources Unit Leader will notify suppliers who have existing agreements with Wyandotte County and inform them of the

County’s intent to activate the agreements. The Resources Unit Leader will also verify the availability of supplies and the time lines for delivery.

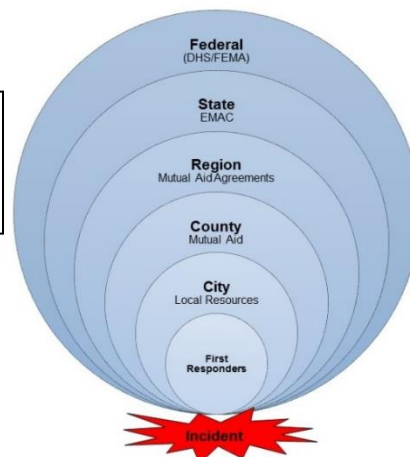

If the needed supplies are not covered in existing agreements, the EOC Finance/Admin Coordinator will purchase the needed supplies from an appropriate vendor or solicit a donation of the needed supplies. The EOC Finance/Admin Coordinator will work closely with the ESF 7 Donations Management group to help ensure donated goods are used to fill supply requests when possible.

In major emergencies that exceed or threaten to exceed local resources, regional resources will be requested. If the resources needed are beyond local and regional capabilities, the State and Federal government may be able to provide assistance. However, their ability to respond quickly may be limited. The ESF 7 Coordinator will work closely with ESF 5 to determine if conditions warrant the declaration of a local emergency. Some resources such as State Resources through KDEM and Federal Resources through FEMA may not be available until a local declaration of emergency has been made.

Once a local declaration of emergency is made, if the State determines the emergency requires resources beyond state capabilities, the State will coordinate a request for a Federal Declaration. Some Federal resources may be available without a Federal Declaration. Examples of these types of Federal assistance include those described in the National Oil and Hazardous Substances Pollution Contingency Plan, the Mass Migration Emergency Plan, the National Search and Rescue Plan, and the National Maritime Security Plan.

To help make certain the correct resources are provided, the EOC Finance/Admin Coordinator will work to ensure that essential information is requested from and provided by those making resource requests including:

The following flow chart depicts the progression of resource requests from local to regional, to state, to federal resources.

- **What** is needed (as specifically as possible)?
- **Why** is it needed?

- **How much** is needed?
- **Who** needs it?
- **Where** is it needed?
- **When** is it needed?

Once a request for supplies is confirmed, the EOC Finance/Admin Coordinator will contact the supplier, order and confirm shipment and provide necessary information such as place of delivery, credentials needed to pass checkpoints, etc.

2.4.1 Procurement and Hiring

When requests are of a high priority, an emergency procurement and/or hiring process may be necessary. Emergency procurement may involve contacting suppliers, negotiating terms, and making transportation and distribution arrangements.

Emergency hiring may involve using available local and state job service records and any applicant and vendor files the Human Resources Department maintains for particular types of positions, including Workforce Development.

Depending on types and numbers of personnel needed, volunteers may be used to quickly fill needed positions. For example, the Medical Reserve Corps of Greater Kansas City (MRCKC) and the Kansas System for the Early Registration of Volunteers (K-SERV) are two sources for volunteers that can be used to augment personnel. The EOC Finance/Admin Coordinator will work closely with the Volunteer and Donations Management Coordinator to ensure volunteer resources are appropriately utilized.

2.4.2 Distribution

The EOC Finance/Admin Coordinator will work with the other members of the EOC to determine the appropriate facilities and methods for the timely distribution of resources. High priority resources as identified by the EOC will be distributed as quickly as possible. When required by the situation, distribution points may be established to provide supplies to the public.

The Public Health Department, as the ESF 8 Coordinator, is responsible for establishing Points of Distribution (POD) for medications and vaccines that are determined necessary as a result of an event, to include distribution of medications from the Strategic National Stockpile (SNS). See the ESF 8 Annex for additional information about these distribution facilities. Other non-medical distribution facilities will be coordinated by ESF 7.

The EOC Finance/Admin Coordinator will determine what distribution facilities will be needed to handle the flow of resources into and through the jurisdiction. In a major emergency, with an extensive influx of resources, supplies and personnel, the EOC Finance/Admin Coordinator, in coordination with the EOC, may request certain facilities be designated for emergency use such as:

- **Mobilization Center** – a designated location for receiving and processing resources and personnel prior to their deployment to a Staging Area or incident site. The Mobilization Center may also be required to provide briefings, lodging and feeding for arriving personnel.
- **Staging Areas** – may be used to assemble personnel and equipment for immediate deployment to an operational site in the affected area(s). Potential Staging Areas will be dictated by the locations and the scope of the incident but may include fairgrounds, schools and recreational facilities.
- **Warehouses and other facilities** – may be needed to store or stage supplies and equipment for both short and long-term emergency use.
- **Private Sector Facilities** – In addition to government facilities, Wyandotte County may make arrangements with local realtors to provide information on private sector facility availability.

The EOC Finance/Admin Coordinator will ensure these facilities are notified of incoming supplies, equipment and other resources, as well as their priority designation. Distribution facilities will provide reports on resources passing through or arriving to allow the EOC Finance/Admin Coordinator to track the location of resources and timeliness of delivery. The Mid America Regional Council (MARC) Regional Coordination Guide for ESF 7 provides information on larger regional events.

If necessary, law enforcement agencies may reroute or delay traffic to accommodate the timely distribution of emergency resources and supplies.

2.5 Volunteer and Donations Management

After any emergency that generates significant media coverage, the potential exists for Wyandotte County to receive an immediate influx of volunteers and large quantities of donations. Wyandotte County will work closely with the volunteer agencies responsible for these functions to ensure the appropriate use of both volunteers and donated goods.

2.5.1 Volunteer Management

Through preparation and participation in the development of a volunteer disaster response, the Unified Government of Wyandotte County Emergency Management Department leadership has embraced the benefits of a planned, systematic and

professional approach to incorporating spontaneous, unaffiliated volunteers into disaster response. An exercised volunteer management process initiated by the Kansas City Regional Community Organizations Active in Disasters (KCR COAD) Volunteer Reception Center (VRC) is in place for the Kansas City Metro area. The Wyandotte County Volunteer Registration Center (VRC) process is tailored to meet identified specific needs for Wyandotte County disasters.

The KC COAD Volunteer Reception Center will be used for regional responses and those incidents for which numerous volunteers are required for the entire Kansas City Metropolitan area as identified by the Mid America Regional Council jurisdictions. The Wyandotte County VRC may also be used in cooperation with the KC COAD VRC, if requested.

A spontaneous or unaffiliated volunteer can become a registered volunteer for the Wyandotte County Emergency Management Department upon completion of the assessment and registration process at the VRC.

The Wyandotte County Emergency Management Department has designated the Community Emergency Response Team (CERT) to serve as the staff for VRC activation and operations. CERT members are trained volunteers dedicated to responding to incidents within Wyandotte County or deployed to disasters via the Emergency Management Department. See Addendum 7 for additional information on Volunteer Management procedures.

2.5.2 Donations Management

The Salvation Army (TSA) will coordinate donations management for large-scale emergencies in Wyandotte County. TSA has access to warehouse space in the area. To ensure effective utilization of donated goods, TSA will provide a Coordinator to the EOC to work directly with ESF 7 to fill resource/supply requests with donated goods when possible.

2.6 Tracking Resources

The Wyandotte County EOC utilizes a combination of mechanisms to track resource requests and mission assignments. WebEOC is the electronic information management system in use throughout the KC Metro area. All of the Incident Command System (ICS) forms, including the ICS 213 (RR) Resource Request, ICS 212 Vehicle Inspection, ICS 215 Operational Planning, 221 Demobilization, and 225 Performance Evaluation are included in the WebEOC library as electronic fillable forms. The ESF 7 Coordinator is

trained as a Unified Government Procurement Officer and has taken Incident Action Planning training.

The ESF 7 coordinator is responsible for tracking each request that comes to the EOC either by ICS form or verbal request. The section then utilizes normal and/or emergency procurement procedures to obtain the item either through mutual aid or expenditure. The requests are then tracked by ESF 7 personnel for data such as arrival time, compliance with procurement request criteria, etc. Depending upon the nature of the request and the level of urgency, the requested items are delivered either to: (1) a designated warehouse space, (2) a specific staging area, or (3) a local distribution center, (4) direct to other areas such as PODs, VRCs, etc. or (5) direct to the incident command post.

In situations where resources such as fuel or medications are scarce, decisions regarding distribution priority for stocks/stores of those items would be made by the command and general staff in cooperation with ESF 8 and ESF 12 and others as appropriate.

If the need arises to perform maintenance of resources/equipment that has been provided through mutual aid the owner of the equipment will be contacted for approval to perform maintenance/repairs. Once approved by owner, then the Logistics Unit Leader and the ESF responsible will be contacted for approval of maintenance/repair of said equipment. All documentation will be provided to Resource Unit Leader who will affiliate paperwork with the appropriate MOU, MAA, lease/loan agreements. The copy of payment will be given to the Resource Unit Leader, Finance Section Chief, and all documents will be given to Document Unit Leader to be archived.

2.7 Emergency Contracting

Emergency purchasing rules are in place to allow for the timely acquisition of needed private sector resources, specifically Unified Government Code 3-106, Emergency Procurement states:

Notwithstanding any other provisions of this chapter (*Chapter 29 of the Unified Government Code of Ordinances*), the purchasing director, the head of a procuring agency or the designee of either may make or authorize others to make emergency procurements when there exists a threat to public health, welfare, or safety under emergency conditions as defined in regulations promulgated by the unified government administrator; provided that such emergency procurements shall be made with such competition as is practicable under the circumstances. A

written determination of the basis for the emergency and for the selection of the particular contractor shall be included in the contract file.

Although this provision allows for expedited procurement, it does not impact responsibility for full payment of emergency contracts. This emergency provision does not have any set limitations for emergency contracting. However, limitations may be set by the Purchasing Director.

2.8 Considerations for Access and Functional Needs Populations and Children

The Unified Government has a local Americans with Disabilities Act (ADA) Coordinator position within the Human Services Department that coordinates regularly with the State ADA Coordinator to ensure programs and policies are in compliance with the Americans with Disabilities Act. In addition, in large or complex disasters, the EOC Manager may choose to staff an ADA Response Coordinator directly in the EOC. If necessary, the ESF 1 Coordinator(s) will consult with the ADA Coordinator, or ADA Response Coordinator, if assigned, to ensure transportation services are delivered in a manner consistent with the ADA.

The Unified Government's Area Agency on Aging will also provide specially trained personnel, as well as supplies, equipment, and transportation resources for the area's senior populations as well as access and functional needs populations. ESF 7 will consider access and functional needs when locating warehouses or other staging facilities. In addition, access and functional needs will be considered when determining points of distribution locations to ensure accessibility.

The Department of Health and Human Services has identified the top 15 languages spoken in households in Kansas. English was identified as the primary language and Spanish as the secondary language spoken in households within Wyandotte County. Some educational materials have been translated into Spanish and, on occasion, other languages. Translation into additional languages will be performed as required.

The Unified Government of Wyandotte County utilizes several vendors for interpretation and translation services. This service is available to all emergency response agencies and the Public Information Officers throughout the county. Specific information about how to request and utilize these vendors as well as the languages for which services can be provided is found in the ESF 6 (Addendum 9) Interpreter and Translator Services.

The local television stations have agreed to provide information in Spanish and other languages as appropriate when they interrupt programming or when text scrolls are used across normal programming. TTY telephone services are available throughout Wyandotte County. In addition, the Kansas State School for the Blind can assist with Braille interpretation.

3 RESPONSIBILITIES

This section describes responsibilities and actions designated to coordinating, primary and support agencies. Actions are grouped into phases of emergency management: Preparedness, Response, Recovery and Mitigation.

Overall Actions Assigned to All Agencies	
Overall Actions Assigned to All Agencies	
<i>Preparedness (Pre-Event) Actions for ESF 7 Logistics and Resources</i>	
1	Maintain a central personnel roster, contact, and resource lists to support ESF 7 tasks.
2	Identify who is responsible for initial notification of ESF 7 personnel.
3	Develop applicable standard operating procedures, guidelines and/or checklists detailing the actions of their assigned functions to support ESF 7.
4	Train personnel on EOC operation, the Incident Command System (ICS) and the National Incident Management System (NIMS).
5	Maintain updated resource inventories of supplies, equipment, and personnel resources, including possible sources of augmentation or replacement.
6	Develop, review and maintain ESF 7 Annex.
7	Develop mutual aid and other support agreements with surrounding jurisdictions and the private sector.
8	Participate in emergency management exercises and training.
Overall Actions Assigned to All Agencies	
<i>Response (During Event) Actions for ESF 7 Logistics and Resources</i>	
1	Provide a representative to the County EOC, when requested.
2	Provide field support for emergency responders at the scene.
3	Collect, process, and disseminate information to and from the EOC, utilizing WebEOC.
4	Participate in EOC briefings, incident action plans, situation reports and meetings to support ESF 7.
5	Document all costs and expenses associated with response and recovery activities taking care to clearly segregate disaster related work from daily work, by personnel.
6	Document actions, activities and decisions.
7	Work with the other members of the EOC team to set priorities and assign resources.
8	Provide ongoing status reports as requested by the ESF 7 Coordinator, Emergency Management or senior leadership.

Overall Actions Assigned to All Agencies	
<i>Recovery (Post Event) Actions for ESF 7 Logistics and Resources</i>	
1	Continue to perform tasks necessary for recovery operations.
2	Return borrowed resources and those obtained through agreement, lease, or rental when those resources are no longer required.
4	Document all costs and expenses associated with response and recovery activities taking care to clearly segregate disaster related work from daily work, by personnel.
5	Provide ongoing status reports as requested by the ESF 7 Coordinator, Emergency Management or senior leadership.
Overall Actions Assigned to All Agencies	
<i>Mitigation Actions for ESF 7 Logistics and Resources</i>	
1	Participate in mitigation planning team meetings and work with local emergency management to promote community preparedness.
2	Participate in the hazard identification process and identify and correct vulnerabilities.

Coordinating: Unified Government Finance Department	
<i>Preparedness (Pre-Event) Actions for Unified Government Finance Department</i>	
1	Actions assigned all ESF partners.
2	Maintain updated resource inventories of supplies, equipment, and personnel resources, including possible sources of augmentation or replacement.
3	Participate in Emergency management training and exercises
4	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
5	Maintain and update ESF #7 with support from the Emergency Management Department
6	Finance will work with Emergency Management to ensure personnel are properly credentialed to serve in assigned areas
7	Contribute to Regional Coordination Guides developed for each ESF to support regional events.
<i>Response (During Event) Actions for Unified Government Finance Department</i>	
1	Actions assigned all ESF partners.
2	Provide ongoing status reports as requested by the ESF Coordinator(s).
3	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
4	Document all costs and expenses associated with response and recovery activities taking care to clearly separate disaster related work from daily work in the event that reimbursement from the State and Federal government becomes available.

5	Use the WebEOC, Crisis Information Management System, to capture information from all involved agencies relevant to the resource support function.
6	Assist with the financial aspects of meeting resource requests, including record keeping and budgeting for procurement.
7	Assist with research, record-keeping and database management for resource support operations.
8	Provide a representative to the EOC to coordinate ESF-7 activities.
9	Finance will work with Emergency Management to ensure personnel are properly credentialed to serve in assigned areas
10	Coordinate with state and adjacent county resource support officials
11	Manage the collection, processing, and dissemination of resource support information to and from the EOC in coordination with the Data and Technology Coordinator. Use WebEOC to accomplish this when practicable.
12	Work with the Finance Coordinator to maintain purchasing and financial records of all expenditures for response and recovery activities.
13	Communicate with ESF -13 to provide list of vendors/agencies with access to transport materials through restricted areas
<i>Recovery (Post Event) Actions for Unified Government Finance Department</i>	
1	Actions assigned all ESF partners.
2	Provide ongoing status reports as requested by the ESF Coordinator(s).
3	Document all costs and expenses associated with response and recovery activities taking care to clearly separate disaster related work from daily work in the event that reimbursement from the State and Federal government becomes available.
4	Use the WebEOC, Crisis Information Management System, to capture information from all involved agencies relevant to the resource support function.
5	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
6	Participate in After Action Reports and critiques
7	Finance Coordinator will maintain purchasing and financial records of all expenditures for response and recovery activities.
8	Communicate with ESF #13 to provide list of vendors/agencies with access to transport materials through restricted areas
<i>Mitigation Actions for Unified Government Finance Department</i>	
1	Actions assigned all ESF partners.
2	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
3	Participate in Emergency management training and exercises
4	Contribute to Regional Coordination Guides developed for each ESF to support regional events.

5	Develop applicable standard operating procedures, guidelines and/or checklists detailing the accomplishment of their assigned functions.
6	Maintain updated resource inventories of supplies, equipment, and personnel resources, including possible sources of augmentation or replacement.

Primary: Bonner Springs Fire and EMS Department

Preparedness (Pre-Event) Actions for Bonner Springs Fire and EMS Department

1	Actions assigned all ESF partners.
2	Maintain updated resource inventories of supplies, equipment, and personnel resources, including possible sources of augmentation or replacement.
3	Develop applicable standard operating procedures, guidelines and/or checklists detailing the accomplishment of their assigned functions.
4	Maintain up-to-date, 24-hour rosters for notifying personnel and provide this information to the Emergency Management Department.
5	Maintain up-to-date rosters for notifying personnel and 24-hour staffing capabilities.
6	Participate in Emergency management training and exercises
7	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
8	Provide guidance regarding safety issues pertinent to facilities utilized for the resource support function.

Response (During Event) Actions for Bonner Springs Fire and EMS Department

1	Actions assigned all ESF partners.
2	Provide ongoing status reports as requested by the ESF Coordinator(s).
3	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
4	Document all costs and expenses associated with response and recovery activities taking care to clearly separate disaster related work from daily work in the event that reimbursement from the State and Federal government becomes available.
5	Use the WebEOC, Crisis Information Management System, to capture information from all involved agencies relevant to the resource support function.
6	Provide guidance regarding safety issues pertinent to facilities utilized for the resource support function
7	Ensure that resource requests are routed to the EOC with adequate detail.
8	Provide personnel, supplies and equipment from existing inventories as needed to support emergency operations, including the listing of available personnel who speak foreign languages.

<i>Recovery (Post Event) Actions for Bonner Springs Fire and EMS Department</i>	
1	Actions assigned all ESF partners.
2	Provide ongoing status reports as requested by the ESF Coordinator(s).
3	Document all costs and expenses associated with response and recovery activities taking care to clearly separate disaster related work from daily work in the event that reimbursement from the State and Federal government becomes available.
4	Use the WebEOC, Crisis Information Management System, to capture information from all involved agencies relevant to the resource support function.
5	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
6	Participate in After Action Reports and critiques
<i>Mitigation Actions for Bonner Springs Fire and EMS Department</i>	
1	Actions assigned all ESF partners.
2	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
3	Participate in Emergency management training and exercises
4	Develop applicable standard operating procedures, guidelines and/or checklists detailing the accomplishment of their assigned functions.
5	Maintain updated resource inventories of supplies, equipment, and personnel resources, including possible sources of augmentation or replacement.

Primary: Bonner Springs Police Department	
<i>Preparedness (Pre-Event) Actions for Bonner Springs Police Department</i>	
1	Actions assigned all ESF partners.
2	Maintain updated resource inventories of supplies, equipment, and personnel resources, including possible sources of augmentation or replacement.
3	Develop applicable standard operating procedures, guidelines and/or checklists detailing the accomplishment of their assigned functions.
4	Maintain up-to-date, 24-hour rosters for notifying personnel and provide this information to the Emergency Management Department.
5	Maintain up-to-date rosters for notifying personnel and 24-hour staffing capabilities.
6	Participate in Emergency management training and exercises
7	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
<i>Response (During Event) Actions for Bonner Springs Police Department</i>	
1	Actions assigned all ESF partners.
2	Provide ongoing status reports as requested by the ESF Coordinator(s).

3	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
---	--

4	Document all costs and expenses associated with response and recovery activities taking care to clearly separate disaster related work from daily work in the event that reimbursement from the State and Federal government becomes available.
---	---

5	Use the WebEOC, Crisis Information Management System, to capture information from all involved agencies relevant to the resource support function.
---	--

6	Ensure that resource requests are routed to the EOC with adequate detail.
---	---

7	Provide traffic control and security for distribution and warehousing facilities.
---	---

8	Provide personnel, supplies and equipment from existing inventories as needed to support emergency operations.
---	--

Recovery (Post Event) Actions for Bonner Springs Police Department

1	Actions assigned all ESF partners.
---	------------------------------------

2	Provide ongoing status reports as requested by the ESF Coordinator(s).
---	--

3	Document all costs and expenses associated with response and recovery activities taking care to clearly separate disaster related work from daily work in the event that reimbursement from the State and Federal government becomes available.
---	---

4	Use the WebEOC, Crisis Information Management System, to capture information from all involved agencies relevant to the resource support function.
---	--

5	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
---	--

6	Participate in After Action Reports and critiques
---	---

Mitigation Actions for Bonner Springs Police Department

1	Actions assigned all ESF partners.
---	------------------------------------

2	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
---	--

3	Participate in Emergency management training and exercises
---	--

4	Develop applicable standard operating procedures, guidelines and/or checklists detailing the accomplishment of their assigned functions.
---	--

5	Maintain updated resource inventories of supplies, equipment, and personnel resources, including possible sources of augmentation or replacement.
---	---

Primary: Bonner Springs Public Works Department

Preparedness (Pre-Event) Actions for Bonner Springs Public Works Department

1	Actions assigned all ESF partners.
---	------------------------------------

2	Maintain updated resource inventories of supplies, equipment, and personnel resources, including possible sources of augmentation or replacement.
---	---

3	Participate in Emergency management training and exercises
---	--

4	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.

1	Actions assigned all ESF partners.
2	Provide ongoing status reports as requested by the ESF Coordinator(s).
3	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
4	Document all costs and expenses associated with response and recovery activities taking care to clearly separate disaster related work from daily work in the event that reimbursement from the State and Federal government becomes available.
5	Use the WebEOC, Crisis Information Management System, to capture information from all involved agencies relevant to the resource support function.
6	Ensure that resource requests are routed to the EOC with adequate detail.
7	Provide personnel, supplies and equipment from existing inventories as needed to support emergency operations.
8	Assist with resource transportation issues, including transportation resources that are accessible to those with access and functional needs.

Recovery (Post Event) Actions for Unified Government Public Works Department

1	Actions assigned all ESF partners.
---	------------------------------------

2	Provide ongoing status reports as requested by the ESF Coordinator(s).
3	Document all costs and expenses associated with response and recovery activities taking care to clearly separate disaster related work from daily work in the event that reimbursement from the State and Federal government becomes available.
4	Use the WebEOC, Crisis Information Management System, to capture information from all involved agencies relevant to the resource support function.
5	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
6	Participate in After Action Reports and critiques
Mitigation Actions for Unified Government Public Works Department	
1	Actions assigned all ESF partners.
2	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
3	Participate in Emergency management training and exercises
4	Develop applicable standard operating procedures, guidelines and/or checklists detailing the accomplishment of their assigned functions.
5	Maintain updated resource inventories of supplies, equipment, and personnel resources, including possible sources of augmentation or replacement.

Primary: Unified Government Purchasing Department	
Preparedness (Pre-Event) Actions for Unified Government Purchasing Department	
1	Actions assigned all ESF partners.
2	Maintain updated resource inventories of supplies, equipment, and personnel resources, including possible sources of augmentation or replacement.
3	Maintain up-to-date rosters for notifying personnel and 24-hour staffing capabilities.
4	Participate in Emergency management training and exercises
5	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
6	Coordinate the procurement and distribution of supplies and resources available to support emergency response and recovery activities.
7	Ensure emergency contracts are in place to prevent resource shortages in an emergency
8	Maintain an inventory system to track supplies used in the disaster. This listing should include supplies needed by those with functional or access needs such as the medically fragile and children.

9	Establish procedures for procurement of emergency supplies and equipment not covered in existing County codes and emergency procedures.
10	Determine locations and procedures for managing staging areas, distribution centers, warehouses, etc. Assure that distribution centers are accessible to those with functional or access needs.
Response (During Event) Actions for Unified Government Purchasing Department	
1	Actions assigned all ESF partners.
2	Provide ongoing status reports as requested by the ESF Coordinator(s).
3	Maintain mutual aid agreements and memoranda of understanding with applicable surrounding jurisdictions and private sector partners in support of emergency operations in the resource support function.
4	Document all costs and expenses associated with response and recovery activities taking care to clearly separate disaster related work from daily work in the event that reimbursement from the State and Federal government becomes available.
5	Use the WebEOC, Crisis Information Management System, to capture information from all involved agencies relevant to the resource support function.
6	Coordinate the procurement and distribution of supplies and resources available to support emergency response and recovery activities.
7	Determine locations and procedures for managing staging areas, distribution centers, warehouses, etc. Assure that distribution centers are accessible to those with functional or access needs.
8	Maintain an inventory system to track supplies used in the disaster. This listing should include supplies needed by those with functional or access needs such as the medically fragile and children.
9	In coordination with the EOC Team, determine priorities for procurement and distribution of supplies and equipment.
10	Coordinate with ESF 5 to issue local disaster declaration when it is known that outside resource support assistance will be needed
11	Follow provisions of Unified Government Code 3-106, Emergency Procurement in applicable emergency situations.
12	Assist in locating, and if necessary, managing facilities needed to support emergency resource support operations.
Recovery (Post Event) Actions for Unified Government Purchasing Department	
1	Actions assigned all ESF partners.
2	Provide ongoing status reports as requested by the ESF Coordinator(s).
3	Document all costs and expenses associated with response and recovery activities taking care to clearly separate disaster related work from daily work in the event that reimbursement from the State and Federal government becomes available.
