

## kNow LEAD KCK's Income guidelines

| Family Size | Annual Household Income Limit |
|-------------|-------------------------------|
| 1           | \$44,800                      |
| 2           | \$51,200                      |
| 3           | \$57,600                      |
| 4           | \$64,000                      |
| 5           | \$69,150                      |
| 6           | \$74,250                      |
| 7           | \$79,400                      |
| 8           | \$84,500                      |

**Lead-based paint** can be found both inside and outside the home. Do you know where to look for lead?

Exterior paint that is flaking, peeling, or chalking can contaminate soil where children may play.

Deteriorating lead-based paint can also contaminate **dust** in your home.

# KNOW LEAD KCK

**kNOw LEAD KCK** is a grant funded program that helps residents with lead-based paint stabilization. Licensed lead inspectors identify lead hazards and make recommendations, and licensed lead abatement contractors perform the remediation, which may include:

- Replacement of **windows, doors, trim, and porches**
- Removing deteriorated **lead paint** and repainting
- Replacing contaminated **soil**

## You may qualify for this program if:

- Your household meets income guidelines
- You live in Kansas City, KS
- You own your home
- The home you own was built before 1978
- A child under age six lives in the home or visits your home more than six hours per week or a member of your household is pregnant
