Unified Government Public Health Department Making Free COVID-19 Vaccinations Available to Anyone 16 Years and Older, Regardless of Residency

The Unified Government Public Health Department announced today that it will now offer free, COVID-19 vaccinations to anyone age 16 and over, regardless of where they live or work (including people who live outside of Kansas). This change will go into effect immediately.

“Getting more and more people vaccinated is the best opportunity we have to control and stop the spread of COVID-19 in our community,” said Juliann Van Liew, Director of the Unified Government Public Health Department. “We’re pleased to be able to offer these free COVID-19 vaccines to anyone who is 16 years and older, regardless of where they live or work, and that includes people who live outside of Kansas.”

Free vaccines are now available at all of the Unified Government’s mass vaccination locations, whether by appointment or walk-in.

Anyone 16 and older who wishes to schedule an appointment can use the UGPHD Self Scheduling Tool. Go to Wycovaccines.org, and click on the blue button that says, “Click here to schedule an appointment online.” To see this page in Spanish, click on the word “Español” at the top of the page. Wyandotte County residents who don’t have an internet connection can call 3-1-1 (outside of Wyandotte County, call 913-573-5311) for assistance in scheduling their vaccination appointment time and date.

UGPHD Announces Early Morning, Evening Hours

In addition to expanded vaccine access for anyone age 16 and over, UGPHD facilities now have updated hours. The UGPHD is evaluating these new evening and early morning hours for the next three to four weeks. At that time, the UGPHD will reassess and adjust the schedule if needed. The latest hours will be available online at Wycovaccines.org or by calling 3-1-1.
