Location of Position	710 N. 7 th Street Kansas City, KS 66101
-----------------------------	---

BRIEF JOB DESCRIPTION: Design, develop and administer web mapping applications using Latitude Geocortex and/or ESRI's ArcGIS Enterprise to meet customer specific requirements. Design and implement solutions using Esri's ArcGIS suite: ArcGIS Server, Portal for ArcGIS, ArcGIS Pro, ArcGIS Online. Manage GIS server environments. Publish/Consume map services (REST, WMS, GeoRSS, KML/KMZ, etc). Develop, maintain, administer and monitor data pipelines to extract, transform and load data from UG systems of record using Python, SSIS, FME, FME Server. Creation and management of spatial data schemas and metadata catalogs within geodatabases including Esri's ArcSDE, Microsoft SQL Server. Create, configure and maintain ArcGIS Online and Portal for ArcGIS, maps, services and applications for enterprise use. Provide technical direction in developing and sustaining a GIS program in the Unified Government.

MINIMUM QUALIFICATIONS: Bachelor degree in Geography, GIS, Information Technology, Computer Science or related field and 3 years of related GIS experience or an equivalent combination of education and experience sufficient to successfully perform the essential duties of the position. Deep understanding of GIS technologies and best practices. Strong aptitude for learning new skills, adapting to new technologies, and implementing new methodologies. Excellent analytical and problem solving skills. Ability to prioritize, plan and organize activities and develop realistic action plans and schedules. Extensive experience and understanding of the ESRI ArcGIS Suite of products. Advanced knowledge of geospatial and mapping concepts such as spatial analysis, map projections, location based services, cartography or similar. Experience with cadastral and land records applications a plus. Familiarity with managing relational multiuser spatial databases, consuming and publishing GIS web services, and common web mapping APIs and platforms. Strong data and information management skills. Experience developing with Microsoft technologies with focus on .NET (Visual Studio, SQL Server). Esri or GISP Certification is a plus.
