Secretary of the Interior Standards for Rehabilitation Review

The following standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

Do plans for the property meet these standards?

	Yes	No
A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.		
The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.		
Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.		
Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.		
Distinctive features, finishes and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved.		
Deteriorated historic features shall be repaired that replaced. Where the severity of deterioration requires replacement of a distinctive feature, a new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical or pictorial evidence.		
Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible.		
Significant archaeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken.		
New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.		
New additions and adjacent or related new constructions shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

a

Please include the following information with the completed application:

1. Two (2) sets of elevations, one (1) from before the proposed work and one (1) after the proposed work, showing all four (4) sides of the building, even sides that will have no work being done to it. Elevations must show the dimensions of the façade of the building and must include the dimensions of all windows and doors present on that side of the building;
2. Photographs of all four (4) sides of the building. If work has already started on the building, then two (2) sets of photographs are needed, one (1) set to show the condition of the building’s exterior before the work started (if possible) and one (1) set to show the current condition of the building’s exterior;
3. List of materials that will be used. Photographs, screenshots, or print outs of materials and/or spec sheets are acceptable, so long as the proposed materials’ color and specifications are accurate. A material palette is not necessary; and
4. Plot plan for the property. The plot plan does not have to be produced by a licensed professional. However, North must be shown on the plan and all dimensions of the parcel, building footprints, and distance from buildings to the property boundary must be marked and accurate. If the proposed work includes an addition or expansion of any structure on the property, (if the addition/expansion work is a porch or deck, see Section V below), then two (2) plot plans, one (1) from before the proposed work and one (1) after the proposed work, must be provided. The updated plot plan must show the footprint and dimensions of the proposed porch/deck as well as the distance from the property boundary in order to ensure the additional work will not cause the porch/deck to exceed any building lines or setbacks.

Electronic Document Review: Applicant Users Guide

What is Electronic Document Review?

Electronic Document Review (EDR) is an efficient and cost-effective method of submitting plans to the Unified Government's Department of Planning + Urban Design (Planning Commission/Board of Zoning Appeals) and Development Review Committee (commercial building permit applications). EDR saves applicants time and money by reducing the amount of printed material necessary for navigating the development process. By carefully adhering to the list of required materials, found below, you can help our staff efficiently process and review your application.

What will I need?

You can participate in the EDR process with the free version of Adobe Acrobat Reader ([click here to download](#)). However, your functionality increases if you have an up-to-date version of Adobe Acrobat Pro or DC.

A complete Development Review Committee submittal shall include:

1. DRC permit application.
2. DRC Plan review fee.
3. 1 flash drive or CD containing PDFs of the plan set with electronic seal and signature of all design professionals on all documents. CD shall contain reports, calculations, specs, COMchecks, transmittal letter, etc. Files must be labeled according to the file naming standards in this document.
4. 1 hard set of complete construction plans, signed and sealed by a Kansas-licensed professional(s).

A complete Planning Commission or Board of Zoning Appeals submittal shall include:

1. Development application.
2. Development application fee.
3. 2 individual CDs containing PDFs of the plan set with electronic seal and signature of all design professionals on all documents. The CDs shall contain reports, calculations, specs, COMchecks, transmittal letter, etc. Additionally, the CDs will include a legal description of the property in MS Word format. Files must be labeled according to the file naming standards in this document.
4. Reference the submittal checklist for additional submittal requirements, such as, material palette, affidavits, etc. This document only applied to plan set submittals.

Electronic plan submittal standards:

1. Individual CDs containing PDFs of the plan set shall follow the File Plan Naming Standard.
 - a. PDF sheets shall be saved as D sheets, 24" x 36".
 - b. Submittal shall include complete set of the project as a PDF (civil, architectural, MEP, etc).
 - c. Plan set shall have the legend or table of contents hyperlinked to each section/sheet listed.
 - d. **Each sheet shall be required to have the digital seal and signature of the Kansas licensed surveyor, architect, and/or engineer and the seal date. Plans will not be reviewed unless each sheet is sealed and dated. Supporting reports, calculations, COMcheck required seal and signature as well.**
2. Re-submittal shall follow the same schedule for Planning Commission and DRC applications as listed above. CD cover shall be labeled by the project name, address, and submittal date. A PDF detailed transmittal letter specifying how staff comments were addressed shall be included on the CD. The submitted electronic plans shall not use the color "red" for plans, drawings, notations, etc.
3. If revisions are required to the DRC plan set, applicant is responsible for inserting revised sheets into the DRC plan set. This will be a requirement for the submittals and final permitting approvals. This is critical, as it is the set that will be returned to the job site and referenced for inspections.
4. Revised sheets will be accepted via email, with a 150 mb per e-mail limit, at EDR@wycokck.org. If submitting in this manner, send a follow up e-mail to verify receipt. A PDF detailed transmittal letter specifying how staff comments were addressed shall be included on the CD. The submitted electronic plans shall not use the color "red" for plans, drawings, notations, etc. Reference File Plan Naming Standards. Final PDF record of plan sets shall be provided at the time of permit issuance if revised sheets were received via email. Seal date shall match the seal date of the approved sheets. Transmittal letter confirming seal dates and sheets shall be provided by the architect and/or engineer of the record shall be signed and sealed.
5. New electronic submittals and re-submittals shall follow the same submittal process. Submittals shall be provided to the DRC coordinator for distribution:

Neighborhood Resource Center
Attn: DRC Coordinator
4953 State Avenue
Kansas City, Kansas 66102
(913) 573-8664 | edr@wycokck.org

If the electronic submittal is not at the minimal standards listed above, it will not be accepted. Size of your project is taken into consideration and additional printed plan sets may be requested. It shall be at the discretion of the DRC members to accept electronic plan review submittals for DRC projects. If you have a substantially large project, please contact the DRC Coordinator to discuss prior to submittal.

New to DRC

- EDR Submittal Guidelines
- DRC Certificate of Occupancy Inspection Request Guidelines
- Track the status of your DRC plan review online at www.wycokck.org/DRC
- DRC building permits will not be issued until all fees/permits are acquired with the Public Works Department
- Credit card payments are now accepted with the Department of Planning + Urban Design. A 2.5% transaction fee will be applied.

File Plan Naming Standards for EDR

When preparing your plan sheets for an Electronic Document Review (EDR) submittal, please follow the file naming structure shown below. All file names will begin with a letter(s) designation followed by two numbers. Example: Architectural drawings would be designated as A01 through A99.

Exception: The applicant's cover sheet must always start with the number 0 (zero) followed by the letters cs (cover sheet) and then a number: 0cs1, 0cs2, etc. Using the number 0 (zero) will ensure that your cover sheet will always be alphabetically on top of the list in EDR.

Cover sheet index/legend for your plan set shall be labeled to these standards, in addition to each sheet of your plans. Each set of your supporting documents will be a separate file and must be clearly named.

Example: Z01 COMcheck Building Envelope
 Z02 Retaining Wall Calculations

Resubmitted plan sheets shall designate R behind the sheet title and include the revision date. Example: Original sheet titled A01 and revised sheet titled A01R_1_12_14. For DRC Electronic Document Review (EDR) submittal requirements reference Electronic Document Review Submittal Requirements.

We have referenced a standard naming practice for construction plan sets. Plan set shall have the legend or table of contents hyperlinked to each section/sheet listed.

Contact List

The land development process frequently requires input from a variety of people and organizations. This can include utility companies, local school districts and many departments of the Unified Government. This contact list has been included in the application packet to better facilitate collaboration between you and the other entities involved in the development process. If you can't find a contact you need in this list, feel free to reach out to the Department of Planning + Urban Design and we'll be happy to assist you.
