UNIFIED GOVERNMENT OF WYANDOTTE COUNTY/KANSAS CITY, KANSAS

2020 CONSOLIDATED ANNUAL PERFORMANCE EVALUATION REPORT

Reporting Period: Oct. 1, 2020-Sept. 30, 2021 Published November 2021

Developed By:
The Community Development Department

CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The Unified Government of Wyandotte County/Kansas City, Kansas (UG) is submitting this Consolidated Annual Performance and Evaluation Report (CAPER) to the Department of Housing and Urban Development (HUD) which describes outcome performance measures as related to the UG's Five Year Action Plan (2017-2021). The outcome performance measures address the following HUD goals: 1) creating suitable living environments; 2) providing decent housing; 3) creating economic opportunities.

CAPER reporting includes narratives and other information regarding the following entitlement grants awarded to the UG during the 2020 Action Plan Year: Community Development Block Grant (CDBG), HOME Investment Partnership Program and the Emergency Solutions Grant (ESG). In addition to the regular annual grants, the UG received additional allocations of CDBG (\$2,143,980) and ESG (\$2,391,577) funds to "prevent, prepare for and respond to Coronavirus" as a part of the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The following table summarizes the goals and outcomes of the 2020 program year which ran from October 1, 2020 to September 30, 2021 and the overall achievements throughout the 2017-2021 Five-Year Consolidated Plan. The 2020 program year was the 4th year in the Consolidated Plan.

The UG contracts with subrecipients to carry-out most Community Development activities. For CDBG (regular and CARES Act) funding, the UG contracts with Livable Neighborhoods, The Willa Gill Multi-Service Center, and the Community Health Council of Wyandotte County to carry-out provide public services. For the Emergency Solutions Grant (regular and CARES Act) activities such as Rapid-Rehousing, Homelessness Prevention, Emergency Shelter, and Street Outreach, the UG partners with numerous local agencies involved in the Greater Kansas City Coalition to End Homelessness. For HOME activities the UG partners with agencies such as Community Housing of Wyandotte County, Habitat for Humanity and Mount Carmel Redevelopment Corp. to complete affordable housing developments. All of these partners are critical in the UG's ability to deliver these grant funded services to Wyandotte County/Kansas City, KS residents.

Activities that are carried out directly by the UG include the Home Repair Program housed in the Community Development Department and infrastructure projects like the NRSA Park Improvements which require collaboration between multiple UG departments such as the Parks and Recreation Department, Public Works and Planning and Urban Design.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected - Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected - Program Year	Actual – Program Year	Percent Complete

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction's use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

As shown in the table above, the activities completed in the 2020 program year address priorities and objectives identified in the Annual Action Plan and the Consolidated Plan, as well as the Neighborhood Revitalization Strategy Area (NRSA) plan and Affirmatively Furthering Fair Housing (AFFH) plan. Further reports are attached that describe NRSA and AFFH progress. Emergency Solutions Grant accomplishments are not reflected here but were reported in the SAGE system and can be viewed in the attached report.

The 2020 program year, like the 2019 program year, brought many challenges related to the COVID-19 health crisis and resulting economic disruption. Rapidly changing public health orders, and safety requirements changed the way that the UG and subrecipients were able to safely provide services. This required rethinking the systems, learning to work remotely, increased attention to sanitation and other changes. The emergence of the Delta Variant derailed Community Development's progress just as the Department was beginning to finally return to a more

normal pace in work production. As most jurisdictions across the country, staff turnover and numerous unfilled job openings throughout the organization has led to delays in projects county-wide. Partner Departments struggle with capacity to undertake CDBG projects and deploy block grant funding. This is especially true for projects related to the NRSA.

Along with these barriers, housing instability increased along with unemployment. The eviction protections have expired, but the State of Kansas has worked to deploy the Treasury rental assistance dollars. While the program had a slow start, it has finally hit a stride. Local agencies have worked diligently to ensure that Wyandotte County residents can access this and other critical resources. With the passage of the CARES Act and the American Rescue Plan Act and the mobilization of community leaders, funds have entered the community and are beginning to alleviate some of the impacts of COVID-19.

Market factors continue to affect some activities. Costs in construction and a decline in available contractors have stalled many of the subrecipient brick-and-mortar projects which can be seen in the decline in production of planned public facilities and affordable housing units in the table above. However, many HOME projects have been re-initiated and have begun construction in the past few months. Additionally, an extreme sellers' market has caused the CHIP homeownership program to stall as home prices have climbed astronomically, pushing many lower to moderate income buyers out of the market entirely. Even with subsidization, the prices are too high for the program's target audience.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted). 91.520(a)

	CDBG	HOME	ESG
White	2,042	0	0
Black or African American	1,670	0	0
Asian	0	0	0
American Indian or American Native	0	0	0
Native Hawaiian or Other Pacific Islander	0	0	0
Total	3,712	0	0
Hispanic	742	0	0
Not Hispanic	1,731	0	0

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

The table above summarizes the demographic makeup of households and persons who received direct assistance from the CDBG and HOME funded programs during the reporting period. The data is cumulative for all CDBG and HOME funded activities - home repair programs, homebuyer assistance and public services completed during the 2020-2021 program year. ESG beneficiary data is reported in SAGE and can be viewed in the attached report. Discussion about the HOME CHIP program accomplishments can be found on Section CR-05.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source Resources Made		Amount Expended						
		Available	During Program Year						
CDBG	public - federal	2,304,449	2,029,612						
HOME	public - federal	876,084							
ESG	public - federal	198,325	198,325						

Table 3 - Resources Made Available

Narrative

As mentioned in previous sections, many challenges led to a slow rate of grant expendenture in the 2020 program year, but recently paused projects have begun to make head-way.

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description
City Wide	100	100	

Table 4 – Identify the geographic distribution and location of investments

Narrative

All CDBG funds were used to carry out national objectives benefiting residents of low-mod income and for slum and blight activities within the city limits of Kansas City, Kansas.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

Community partners enable the UG to leverage funds to increase its capacity to provide services. Community Housing Development Organizations, Community Development Corporations and other nonprofit agencies that serve low- and moderate-income families, as well as the Continuum of Care agencies obtained funds and other resources through the HUD competitive grant processes and other private and/or public resources. A more in-depth discussion of subrecipients can be seen in CR-05.

CDBG - Willa Gill leveraged \$1,693,740 through in-kind donations, volunteer hours, rental fees, and food.

ESG - Non-profit agencies subcontracting with the UG are required to provide a 100% match for the federal Emergency Solutions grant that they are awarded.

HOME – CHDO's and other non-profit agencies subcontracting with the UG are not required to provide a match for the federal HOME grants that they are awarded.

Fiscal Year Summary – HOME Match				
1. Excess match from prior Federal fiscal year	0			
2. Match contributed during current Federal fiscal year	0			
3. Total match available for current Federal fiscal year (Line 1 plus Line 2)	0			
4. Match liability for current Federal fiscal year	0			
5. Excess match carried over to next Federal fiscal year (Line 3 minus Line 4)	0

CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

	One-Year Goal	Actual
Number of Homeless households to be		
provided affordable housing units	506	0
Number of Non-Homeless households to be		
provided affordable housing units	16	18
Number of Special-Needs households to be		
provided affordable housing units	3	17
Total	525	35

Table 11 - Number of Households

	One-Year Goal	Actual
Number of households supported through		
Rental Assistance	0	0
Number of households supported through		
The Production of New Units	5	0
Number of households supported through		
Rehab of Existing Units	65	35
Number of households supported through		
Acquisition of Existing Units	0	0
Total	70	35

Table 12 - Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

The numbers of "homeless" households to be served represent ESG accomplishments which are not reported here, but in the SAGE system. The "Special Needs" households listed above represent the households who recieved home rehabilitation to remove barriers to accessibility.

Discuss how these outcomes will impact future annual action plans.

The previous year's goals are reviewed against the current outcomes on an annual basis and the Annual Action Plan is developed accordingly. During this review, it is determined if programs need to be modified to address current needs. Many stalled projects have restarted or will restart in the coming months.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual
Extremely Low-income	35	0
Low-income	0	0
Moderate-income	0	0
Total	35	0

Table 13 - Number of Households Served

Narrative Information

This table breaks-down the income type of households served by CDBG and HOME during the reporting period. The types of activities include direct down payment assistance with the CHIP program under HOME, in addition to the HOME assisted houses built with HOME funds by the UG's housing partners. Under CDBG, this includes health and safety home repairs and barrier removal.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c) Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

Greater Kansas City Coalition on Ending Homelessness (GKCCEH) utilizes agencies outreach staff that consist of mobile assessors who are trained to administer the Vulnerability Assessment Tool (VAT) for those unable to be assessed at a Hub location. This will ensure that persons experiencing a housing crisis who are encountered on the streets are prioritized for assistance in the same manner as any other person who is assessed through coordinated entry.

All populations and subpopulations (chronic homelessness, veterans, adults with children, youth, and survivors of domestic violence) in the CoC's geographic area have fair and equal access to the coordinated entry process, regardless of where or how they present for services. Marketing strategies include direct outreach to people on the street and other service sites, informational flyers left at service sites and public locations, announcements during CoC and other coalition meetings. All physical entry points are accessible to people with disabilities, and/or are able to make appropriate accommodations, and are easily accessible by public.

Addressing the emergency shelter and transitional housing needs of homeless persons

Unified Government of Wyandotte/KCK and GKCCEH supports programs that address homelessness and increase access to homeless persons in need of services and/or shelter. Shelter services offer shelter, meals, and supportive services. Shelter programs consist of overnight shelter-a place to sleep for less than 12 hours, transitional shelters- shelter up to 2 years with food and supportive services and voucher shelters- provided by hotels/motels through a voucher program when shelters are full or not available.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

Those exiting from publicly funded institutions, systems of care, and/or receiving assistance from public or private agencies must complete a Vulnerability Assessment Tool (VAT) assessment before one can be housed into a housing program. The Vulnerability Assessment Tool (VAT) provides a structured way of measuring an individual's vulnerability to continued instability. By rating an individual's level of

functioning or severity of condition across 10 domains, a comprehensive assessment of vulnerability can be reached and then compared with vulnerability assessments of other people experiencing homelessness. The assessment process includes a structured interview followed by completion of the rating scales. The tool will be used for all sub populations currently experiencing homelessness (Vets, youth, families, single adults, etc). The tool is administered by GKCCEH to ensure reliable application of the tool.

Based on the individuals VAT score, they can be housed within a two-week timeframe. Coordinated entry staff discusses the status of housing referrals weekly, referrals are from our Community By Name List; a complete listing of those individuals in need of housing and their VAT score. Anytime an opening is available for a housing program, agencies refer to the Community By-Name List.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

Housing First (HF) - Housing First is a homeless assistance approach that prioritizes providing people experiencing homelessness with permanent housing as quickly as possible - and then providing voluntary supportive services as needed. This approach is low barrier, prioritizing client choice in both housing selection and in service participation. HF is mandated for CoC/ESG funded PH programs, and encouraged for TH & ES programs.

The core components of HF are:

- Low barrier admission policies Homeless programs having low barrier admission policies are those who place a minimum number of expectations on participants. Policies should be designed to rather qualify than disqualify applicants with the greatest barriers to housing, such as having no or very low income, poor rental history or past evictions, or criminal histories.
- Few to no programmatic prerequisites to housing Homeless clients are offered permanent housing with no programmatic preconditions such as demonstration of sobriety, completion of drug, alcohol or mental health treatment, or agreeing to comply with a treatment regimen upon program entry.
- Voluntary, but engaged services Supportive services are proactively offered to help clients
 achieve & maintain permanent housing, but clients are not required to participate in services as
 a condition of housing.

Once a program participant has been identified to receive housing services, case managers intensively work with clients to ensure they are receiving living skills, budget management, employment services, substance abuse services and any other services needed to transition to permanent housing.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The Unified Government (UG) in collaboration with the Kansas City, Kansas Housing Authority (KCKHA) which provides public housing and Section 8 voucher rental assistance for low-income residents in Wyandotte County, Kansas/Kansas City, Kansas area.

The KCKHA owns and manages 2,108 units that comprise nine elderly sites and seven family sites with family apartments scattered throughout the community as well. The KCKHA is continuing its effort to reposition its oldest housing development, Juniper Gardens (the first Public Housing site in the state of Kansas). During the current reporting period the Housing Authority maintained a waiting list for public housing units of 793 households.

The Section 8 department maintains 1,642 Housing Choice Vouchers (HCV). The Section 8 waiting list opened August 16, 2021 for a period of 3 days and received 1,928 applications from individuals seeking subsidized housing assistance. The Housing Authority continues to take applications for project-based vouchers attached to Delaware Highlands Assisted Living Facility.

The Housing Authority knows the importance of community partnerships and the importance of providing information concerning the KCKHA's housing programs to agencies within our community. Beginning March 2022, KCKA will initiate a Housing 101 Program. The Housing 101 Program give the KCKHA the opportunity to educate community agencies on the number of programs and services KCKHA provides to low-income families.

The Housing Authority's Section 8 program continues its partnership with the successful Delaware Highlands Assisted Living Facility, a tax-credit financed property that provides 121 assisted living units for low-income "frail elderly" residents of the community. This assisted living program utilizes project-based Section 8 vouchers for housing and Medicaid provided elderly waivers for care that has provided a "bridge" for senior citizens who can no longer live independently, but do not require long-term nursing care.

The KCKHA improvement projects are moving forward with the backlog and future capital improvements to meet its objective in its annual and five year plan for the continued enhancement of the quality of its housing stock by investing in capital improvements to make units more competitive with housing in the private sector.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

KCKHA continues training Public Housing Resident Councils to increase effectiveness in executing selfsufficiency activities in PHA communities. These opportunities are designed to improve cooperative

relationships with the KCKHA, and to increase participation in Housing Authority management activities, such as:

- Resident Councils provide a forum whereby residents discuss issues, promote good relations with the community and KCKHA management and develop resident leadership.
- Resident Councils also provide a forum whereby residents are given the opportunity to take
 advantage of community resources by participating in the community policing programs to
 institute a Neighborhood Watch group that allows residents to become part of their
 neighborhood's solution to issues.
- The homeownership initiative allows Section 8 voucher holders to utilize their Section 8 subsidy to make mortgage payments towards the purchase of a home.
- The Kansas City, Kansas Housing Authority's Section 8 Program was awarded a new grant: Family Self-Sufficiency. This program will assist participants with training, education, employment, and financial literacy.

Through partnerships with various organizations, residents are provided the following programs to enhance their quality of life:

- KCKHA entered into a Memorandum of Understanding (MOU) with the Unified Government (UG) of Wyandotte County; Kansas City, Kansas to assist with the Housing Quality Inspection (HQS) for the Section 8 rental properties in Wyandotte County.
- Learning Club provides after-school and summer programing at Juniper Gardens, St. Margaret's Park, Cyrus K. Holliday and Chalet Manor.
- K-State Research and Extension Healthy Choices for supportive positive youth decision making related to behavior, diet and nutrition.
- Cultivate KC, Inc. provides community gardens, a source of nutrition for residents and the community, as well as a source of entrepreneurial income for gardeners at Juniper Gardens.
- Catholic Charites provided summer lunch program to all our family sites during the months of June and July which included Juniper Gardens, St. Margaret's Park, Cyrus K. Holiday, Belrose Manor and Chalet Manor, Douglas Heights-Family Sites.
- Family Conservancy's Healthy Parent Healthy Kids-Empowering Women and Preventing Domestic Violence were offered at Juniper Gardens and St. Margaret's Park.
- YouthBuild-KCK offered low-income training and employment for youth ages 16-24 at Juniper Gardens.
- Book Mobile/Portable Computer Lab/KCK Public Library was offered at Juniper Gardens, St. Margaret's Park, Douglas Heights, Grandview Park, Chalet Manor, Bethany Park Towers and Westgate Towers.
- The local Library also provides "Books on Wheels" program at one of Housing Authority Administrative sites as extension of its outreach program to reach families throughout Wyandotte County.

The following summarizes the number of households currently being served: Public Housing Units: 1,814; Section 8 Vouchers: 1,228; (VASH): 30

Actions taken to provide assistance to troubled PHAs

The KCKHA is not considered a "troubled" PHA.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

Five cities, various government agencies and nonprofit organizations in the Kansas City region worked with the Mid-America Regional Council (MARC) in 2016 to develop the Plan for Affirmatively Furthering Fair Housing (AFFH). The strategies and goals of the AFFH are incorporated into the 2017-2021 Consolidated Plan. There were two community AFFH Plan workshops hosted and facilitated by Community Development and MARC with community stakeholders to seek input regarding strategies, goals and outcomes for the AFFH Plan. The Unified Government conducted outreach efforts to maximize input from a large cross-section of stakeholders. This outreach effort included public meetings, published meeting notices, stakeholder meetings and public workshops. The plan was submitted to HUD on November 3, 2016 and went into effect in May of 2017. An annual report for the AFFH Plan can be found in attachments to this report.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The UG continues to build community capacity to overcome barriers of the underserved via partner agencies. These agencies serve underserved needs within the community by providing direct assistance those in need. In addition to providing direct financial assistance for unmet needs, the UG is working with the State of Kansas to close out the Neighborhood Stabilization Program 1 (NSP1).

Public Services: in accordance with the annual action plan, the UG continues to support public and private social service agencies to expand support services to help meet underserved needs.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

Community Development distributes Lead Hazard brochures to all federally assisted home buyer projects upon application to the program. As appropriate, requiring public service and housing rehab sub-recipient agencies to provide information concerning lead hazards to their beneficiaries.

CDBG and HOME program staff persons are trained regarding the implementation of the Lead Based Paint Rule; and implementation of the rule in conjunction with all CDBG and HOME funded rehabilitation projects, as required.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

Community Development staff participate in the UG Health Department's Community Health Improvement Plan - particularly the Safe and Affordable Housing Subcommittee. The subcommittee is

comprised of representatives from the Unified Government, private and public housing agencies, landlords, and social service agencies. The subcommittee has set a priority strategy "...that are intended to have a direct or indirect impact on poverty, discrimination or exposure to adverse childhood experiences (ACEs) such as exploring the development of a community land trust, explore the development of an affordable housing fund, engage utilities to learn what assistance is available, identify gaps and programs, and collaborate to develop strategies and interventions to prevent shutoffs.

In the past, Neighborhood Stabilization Program (NSP1 & NSP 3) helped to stabilize our neighborhoods and to mitigate the impact of the mortgage foreclosure crisis. NSP 1 allowed for 49 houses to be rehabilitated and sold to homebuyers, NSP 3 allowed for 21 new construction houses and 5 rehabilitated houses sold to homebuyers at or below 120% AMI. Twenty-five percent of the NSP allocations were expended for households at or below 50% Area Medium Income.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

The Community Development Department is the responsible entity for implementation of the Community Development Block Grant and HOME Programs for the UG. The UG works in conjunction with community stakeholders, local and regional public service agencies, neighborhood revitalization organizations and area housing partners who have a mutual interest in CDBG and HOME program goals and objectives. Community Development partners with these stakeholders on a wide range of programs including the Five Year Plan, Affirmatively Furthering Fair Housing and the annual budget process.

This partnership is an effort to assess community and regional needs and to enhance coordination of community projects and programs. The UG will continue to reach out and utilize the input from the stakeholders. In addition, the UG has established the Stabilization, Occupation, And Revitalization (SOAR) initiative to address blight in the community and outreaches to these stakeholders.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

Community Development staff participate in the UG Health Department's Community Health Improvement Plan - particularly the Safe and Affordable Housing Subcommittee. The subcommittee is comprised of representatives from the Unified Government, private and public housing agencies, landlords, and social service agencies. The subcommittee has set goals and objectives 1) increase quantity of quality housing for low-moderate income people in high opportunity areas (e.g. easy access to transportation, food, recreation, jobs, low-crime, schools) and 2) reduce the cost of accessing housing and the associated costs of living in the home. Additional information regarding public housing can be found in section CR-30.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

The actions taken to overcome impediments to fair housing choice is noted in the annual AFFH report which can be found in the attachments of this report.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The UG, in administering the annual allocation of CDBG, HOME and ESG funds, has developed an increasing reliance on subrecipient organizations (particularly not-for-profits) for delivery of program services in such activities as housing rehabilitation, housing development, public services and assistance to homeless or special needs clientele. Since the UG is accountable to HUD for the proper use of funds expended through subrecipient agreements, the UG, through the Community Development Department, must perform adequate oversight of subrecipient activities to ensure that Federal funds are being expended in accordance with contractual requirements and in compliance with applicable Federal regulations.

Community Development adopted a new monitoring plan for subrecipients funded under CDBG, HOME, ESG and other federal funds in January 2001 that was submitted to HUD. The plan covers two areas: (1) "Subrecipient Monitoring: Scope and Purpose" attempts to establish the basis for monitoring and principles governing the process and; (2) "Monitoring Plan".

Informal subrecipient oversight is performed on an on-going basis by program staffs who are assigned to the various subrecipient activities. Staff routinely review periodic reports and payment requests submitted by subrecipients to ensure adherence to program plans and basic compliance with contractual requirements.

Monthly oversight is provided to subrecipients as a part of the UG procedures to monitor the HOME program. CD staff conducts routine field inspections as construction occurs to monitor activities of the project to ensure that subrecipients are in compliance with all housing codes.

All CDBG, ESG, HOME and CoC subrecipients including Community Housing Development Organizations (CHDOs), Community Development Corporations (CDCs) and other non-profit organizations are covered by this Monitoring Plan.

Monitoring Timing: Staff who are responsible for monitoring meet early in the calendar year in order to determine which subrecipients will be monitored and when. Notices are sent out 30 days in advance of actual on-site monitoring so that dates and times may be scheduled.

Monitoring is a team effort which involves both fiscal and program staff. Contracts involving rehab or new construction will include random property inspections by appropriate staff.

Review Priority: Priority is be based on three criteria: 1) dollar value of the contract or contracts;

2) length of tenure of the subrecipient (projects are time limited and generally require automatic reviews within one or two years) 3) if there have been any recent problems in the administration of federal funds an immediate review is necessary. Review priority is based on financial thresholds and timing.

Review of information will include the most recent fiscal/program year and the prior year. Coordination of the information that is needed for the review will include both fiscal and program staff. Subrecipients will be monitored from three perspectives: 1) Project specific funding; 2) program specific by funding source; 3) and overall organizational management.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

The revised Citizen Participation Plan includes a grid of the public comment period for each type of report. Public Notices are posted on the city website, city newsletter, metro area publications and emailed directly to stakeholders. The Plan can be found in the attachments to this report.

Due to waivers issued in response to the COVID-19 health crisis the citizen participation plan was amended to allow for expedited processes to quickly mobilize CARES Act funding.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

The 2020 Annual Action Plan has not been amended.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

The UG did not utilize any HOME funds for rental housing projects in 2020 and has no rental projects in the affordability period that would require ongoing inspections.

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 92.351(b)

The UG includes an affirmative marketing section within each HOME Agreement for all units. The UG monitors for subrecipient compliance with contractual obligations.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

The UG received no program income during the reporting period.

Describe other actions taken to foster and maintain affordable housing. 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 91.320(j)

The UG has partnered with four other jurisdictions in a Regional 5 year AFH Plan. The plan was submitted to HUD on November 3, 2016 and went into effect in May of 2017. Please see the annual report in Attachments for more information.

Community and Government In Partnership

1

PUBLIC HEARING ATTENTION

ALL RESIDENTS OF KANSAS CITY, KANSAS

The 2020 Consolidated Annual Performance and Evaluation Report (CAPER) for the Unified Government of Wyandotte County/Kansas City, Kansas will be available for review and public comment beginning Friday, November 19th, 2021. This report summarizes the uses and outcomes of the Unified Government's allocation of Community Development Block Grants, HOME Investment Partnership Grants, and Emergency Solutions Grants. Copies will be available at the Department of Community Development Office in Room 823 and the County Clerk's Office in Room 323 in the Municipal Office Building (address below). The Report will also be available on the Unified Government's website https://www.wycokck.org/Departments/Community-Development/Plans-Reports.

Comments may be submitted in writing to the Community Development Department, Municipal Office Building, 701 North 7th Street, Room 823, Kansas City, Kansas 66101 or by email to sstauffer@wycokck.org by end of day Monday, December 6th, 2021.

KC Reparations Coalition to Hold Community Forum on Reparations Issue

The KC Reparations Coalition will hold a Community Forum on the issue of reparations for Black residents of Kansas City. The forum, which will be held virtually, will take place on Saturday, November 20, at 12 noon. The Coalition, which was formed in November, 2020, has been working on a local reparations initiative to address the specific historical and current harms that have been damaging to Black Kansas Citians. The Coalition is examining five historical injury areas. The areas are Homeownership/Affordable Housing, Education, Healthcare, Economics/Business Development and Criminal Justice. Coalition members will share some reparatory justice demands in each of the areas.

Justice Gatson, a co-convener of the Coalition said, "This forum is very timely as it follows on the heels of the Urban Summit's conference which had as a theme 'Is Equity Enough,' Our forum will answer that question as it pertains to Kansas City." Viewers will be invited to ask questions and offer comments during the forum.

The Coalition member organizations are Sankofa for KC, Muhammad's Mosque No. 30, the Reale Justice Network, the Urban League of Greater Kansas City, NAACP, SCLC, the Urban Summit, and the National Black United Front – KC. Will Bowles is a co-convener. The registration link for the forum is https://bit.ly/2YLzp2c. For more information please call 816-527-6616.

-KC GLOBE SPOTLIGHT-

Emiel Cleaver of Kansas City, Mo., has received two Telly Awards.

The Telly Awards, annually showcases the best work created within television and video, across all screens. This year, Telly received over 12,000 entries from all 50 states and 5 continents. Anil Wanvari, the Founder, CEO says the awards were founded in 1979, to honor excellence in local, regional and cable television commercials with nonbroadcast video and television programming.

Cleaver wrote and produced his biography of legendary businessman and politician, Leon Jordan, titled "Legacy of Leadership" in categories online documentaries and online biography. His submission won in both cat-

AFFH and NRSA Reports

COVID-19 Crisis Response and AFFH

The onset of the COVID-19 crisis has highlighted and exacerbated many issues related to fair housing. While focusing on the immediate needs of the community related to the health crisis, some AFFH goal attainment has been slow in the 2020-2021 program year. Availability of housing that is accessible and safe while also being affordable is an ongoing challenge in Kansas City, KS. This is only worsened by the COVID-19 related job losses and impending eviction cliff that might be realized in the coming months. Mobilization of regional foundations, federal, state, local funds have and will assist non-profit partners in providing rent, utility, and food assistance to the populations most affected by the COVID-19 crisis in Kansas City, KS. The Department of Community Development has \$2,391,595 to respond to homelessness through the ESG-CV program. Efforts will be taken to ensure that roll-out is accessible and promotes fair housing goals.

Regional Fair Housing Goals – AFFH Plan Status as of 1/4/2021

Goal 1: Expand the Use of CDFIs and New Market Tax Credits in neighborhoods with concentrations of persons in protected classes and low-income residents.

Status: No action taken. Contact will be made with organizations that currently offer resources. Discussion was held on federal Opportunity Zones; map on selected zones in the Kansas City region was prepared and provided to local government officials. Organizations, including the Local Initiatives Support Corporation (LISC) is working with others to identify opportunities for reinvestment in the Opportunity Zone areas.

Goal 2: Establish www.kcmetrohousing.org as a central location for the public to access fair housing information.

Status: The Mid-America Regional Council (MARC) established the website through its work with the Homelessness Task Force of Greater Kansas City in 2013. The website offers information on affordable rental housing options for area residents and helps case managers from local agencies find units that are suitable for their clients. The system is supported by the state of Kansas, but there is no financial support for the Missouri portion of the metro area's system. MARC was able to use philanthropic funds for two years; however, ongoing funding has not been identified. The website includes modest information about fair housing rights and how to file a complaint. MARC received information from the company that hosts the website regarding the need to receive revenue from the Kansas City (MO side) area to continue supporting the website. MARC has had discussions with the GKC Coalition to End Homelessness regarding ongoing support for the website. No resources have been identified. Discussions have also been held with local agencies that serve clients seeking housing about pooling

resources to cover the costs to maintain the data in this system and promote it to both landlords and the public.

Goal 3: Establish a fair housing education program for landlords, realtors and lenders

Status: The city of Kansas City, Missouri, has an active fair housing education and outreach program. Through that program, the city has worked with the Kansas City Regional Association of Realtors on an education program for their membership. City staff makes regular presentations to community groups. The Unified Government of Wyandotte County and Kansas City, KS Public Health Department hired a VISTA worker to develop a renter education toolbox in partnership with the CHIP Safe and Affordable Housing Task Force, Kansas Legal Services and UG Department of Human Services. The toolbox is being finalized and will be available online and in print (English and Spanish).

Goal 4: Advocate to Missouri Housing Development Commission and Kansas Housing Resource Commission to include universal design standards beyond HUD and ADA minimums in their projects.

Status: MARC continued to work with national consultants provided by HUD for the Affirmatively Furthering Fair Housing project to define Regional Mobility opportunities. Through their support, analysis was conducted of the state housing finance agencies' Qualified Allocation Plans and comments were drafted. The comments were shared with local stakeholders in May 2017, and a meeting was held with representatives from the two state housing agencies. MARC's Communities for All Ages continues to promote the use of Universal Design in renovation and construction of housing. MARC is working with a national trainer to schedule a free fair housing training on accessibility on May 20, 2019.

Goal 5: Work with local housing authorities to explore a regional approach to housing voucher utilization

Status: MARC continued to work with national consultants provided by HUD for the Affirmatively Furthering Fair Housing project to define Regional Mobility opportunities. Through their support, opportunities were identified to work with the Housing Authority of Kansas City, Missouri, the Lee's Summit, MO Housing Authority and the Independence, MO Housing Authority on three possible projects, including (1) a regional housing locator service to help those with vouchers identify housing in areas of opportunity; (2) a regional project-based voucher program supported by pooled vouchers from the three PHAs and in collaboration with the Missouri Housing Development Commission to layer vouchers with LIHTC incentives; and (3) a regional housing voucher program making it easier for those receiving vouchers from one PHA to move to housing opportunities in another area. Two meetings were held in May 2017 to explore these ideas with housing authority, local government, and foundation representatives. MARC participated in discussions hosted by the Brookings Institution on regional mobility programs that included representatives from Kansas City and Lee's Summit. A draft action plan was prepared and shared. New discussions have been initiated in 2019 with the housing authorities and cities of Kansas City, Missouri, Independence, Missouri, and Lee's Summit, Missouri.

Goal 6: Develop model zoning code for smaller homes on smaller lots and small (4-12) multi-family units

Status: The Mid-America Regional Council (MARC) adopted a new transit plan for the region, Smart Moves 3.0. The plan's focus is to improve transit services to help residents increase their access to jobs and other opportunities. Recommendation HO-2 of the Smart Moves plan is consistent with this goal. The plan states local governments and MARC will use an existing Sustainable Codes Framework and other code examples in 2019 to create code language to allow smaller single and multi-family development near transit routes and mobility hubs. Once developed, thee model codes will be presented to planning commissions and elected officials in the five cities and other communities in the metro area. The plan identifies other partners, including LISC, local housing authorities and local community development corporations.

Goal 7: Develop regional housing locator service to help voucher holders find the most appropriate housing.

Status: MARC continued to work with national consultants provided by HUD for the Affirmatively Furthering Fair Housing project to define Regional Mobility opportunities. Through their support, opportunities were identified to work with the Housing Authority of Kansas City, Missouri, the Lee's Summit, MO Housing Authority and the Independence, MO Housing Authority on three possible projects, including a regional housing locator service to help those with vouchers identify housing in areas of opportunity. Two meetings were held in May 2017 to explore this and other ideas with housing authority, local government, and foundation representatives. New conversations have been initiated in February 2019.

Goal 8: Develop model zoning codes to encourage accessible affordable housing units near transit or other key service or activity centers.

Status: The Mid-America Regional Council (MARC adopted a new transit plan for the region, Smart Moves 3.0. The plan's focus is to improve transit services to help residents increase their access to jobs and other opportunities. Recommendation HO-3 of the Smart Moves plan is consistent with this goal. The plan states that local governments and MARC will use an existing Sustainable Codes Framework and other code examples in 2019 to create code language for new housing development near transit and mobility hubs to be accessible to persons with mobility disabilities. Once developed, thee model codes will be presented to planning commissions and elected officials in the five cities and other communities in the metro area. The plan identifies other partners, including the Whole Person, LISC, local housing authorities and local community development corporations.

Goal 9: Develop model incentive policy to require any multi-unit housing construction or substantial renovation receiving a public subsidy to include some affordable, accessible units that meet universal design standards.

Status: The Mid-America Regional Council (MARC) adopted a new transit plan for the region, Smart Moves 3.0. The plan's focus is to improve transit services to help residents increase their access to jobs and other opportunities. Recommendation HO-3 of the Smart Moves plan is consistent with this goal. The plan states that local governments and MARC will use an existing Sustainable Codes Framework and

other code examples in 2019 to create code language for new housing development near transit and mobility hubs to be accessible to persons with mobility disabilities. Once developed, thee model codes will be presented to planning commissions and elected officials in the five cities and other communities in the metro area. The plan identifies other partners, including the Whole Person, LISC, local housing authorities and local community development corporations. The city of Kansas City, MO is working on a new housing policy, which is expected to be adopted in early 2019, and could serve as a model for other communities.

Goal 10: Promote use of KC Degrees and KC Scholars to help adults in protected populations return to and complete college.

Status: KC Degrees launched in September 2016 to support adult learners in the Kansas City region seeking to complete a high-quality certificate program or degree. Since the launch, KC Degrees has received more than 12,000 inquires through the website (www.kcdegrees.org). As of October 2017, 478 adult learners have completed an inquiry form on the website. Four hundred and one (401) adults have participated in an intake meeting with a College Success Navigator either in person or over the telephone. KC Degrees currently has 129 adult learners enrolled at 13 of 17 postsecondary network partner institutions. The spring 2017 to fall 2017 persistence rate is 95 percent for enrolled adult learners and to date, the initiative has produced four graduates (two at the associate degree level and two at the bachelors). By December 2017, another two adults will have completed their associate degrees. All of the advising services are community-based. KC Degrees has established Memorandums of Agreement with community partners to develop advising locations throughout the region. At these locations, College Success Navigators hold office hours, provide one-one-one advising services for adults, or host events related to the college going process. The community advising sites include: Full Employment Council (MO), Workforce Partnership (KS), Mid-Continent Public Library (five branches), Kansas City Public Library (four branches), Kansas City Kansas Public Library (two branches), Olathe Public Library (two branches), and Johnson County Public Library (two branches). KC Scholars has awarded a first round of scholarships to 285 high school juniors and to 91 adults. A second round of scholarships will be awarded in 2018. The KC Degrees continues to increase the number of adults being served, KC Scholars accepted applications for 2018 and 2019 scholarships and awards are expected to be announced in April/May of each year. The program is working with Metropolitan Lutheran Ministries to help low income adults address prior college debt that is a barrier to enrollment.

Goal 11: Continue to develop and refine the education and job training component of KC Rising and provide guidance to local institutions in targeting these efforts.

Status: The KC Rising initiative is a business-led effort coordinated through the Civic Council of Greater Kansas City, the Kansas City Area Development Council, and the Mid-America Regional Council to increase the region's economic competitiveness. The KC Rising Human Capital Steering Committee composed of business leaders has identified specific initiatives and is overseeing their implementation, including KC Degrees (discussed under goal 10) and KC Scholars to offer scholarships to disadvantaged youth and adults to complete college. Gateways KC to help the community become more welcoming for immigrants and help foreign students be able to stay in the region and take advantage of open jobs and contribute to the economy. Gradforce KC supports postsecondary education to prepare graduates for

jobs in high-demand fields by bringing businesses and educational institutions together. An annual education asset inventory and a core competency report have provided school districts and higher education institutions with information to help students select areas of student and work toward acquiring skills needed for employment opportunities. The Talent-to-Industry Exchange is a replicable process that brings industry and education groups together to solve workforce challenges. TIE processes were completed for the Life Sciences, Architecture and Engineering, and Construction and Skilled Trades sectors.

Goal 12: Form partnerships between local governments, private employers, and neighborhood organizations to develop transportation options that connect low income and protected populations living in concentrated areas of poverty with job opportunities.

Status: The Mid-America Regional Council (MARC) adopted a new transit plan for the region, Smart Moves 3.0. The plan's focus is to improve transit services to help residents increase their access to jobs and other opportunities. Recommendation PL-5 of the Smart Moves plan is consistent with this goal. The plan states that MARC will convene transit providers, cities, advocacy organizations and employers to discuss employer worker needs, how potential employees can be connected to employers in opportunity areas, and advancement of innovative transportation options. All of KCATA's Planning Sustainable Places grant projects have been partnerships with the local governments to develop mobility hubs or improved transit. The projects were in: Leavenworth, SW Johnson County, and Swope Area/Prospect corridor. Additionally, KCATA has been involved in the projects that were located along Independence Avenue and Rosedale. The Unified Government of Wyandotte County and Kansas City, KS has begun the GoDotte planning process to evaluate transportation in the County.

Goal 13: Update the regional transit plan and reconfigure routes to better connect affordable housing, and their protected populations, with employment centers.

Status: Recommendation PL-6 from the Smart Moves 3.0 Transit Plan states "Form partnerships among local governments, MARC, KCATA, area nonprofits and others to connect residents to local and regional destinations. MARC will offer Planning Sustainable Places grants in early 2018 to help local governments and KCATA study possible transit service changes and new transit and mobility service options that would improve connections.

As planned, the regional transit plan was updated and implemented in 2017. The RideKC Smart Move 3.0 Regional Transit Plan was as a collaboration among MARC and the region's RideKC transit providers — the Kansas City Area Transportation Authority (KCATA), Unified Government Transit (UGT), Johnson County, the city of Independence and the Kansas City Streetcar Authority. The Smart Moves 3.0 Plan is a long-term vision for transit and includes a blueprint for how to achieve this vision through an integrated package of investments designed to make transit a real choice for our region's residents and visitors. Additionally, this new plan will include a specific short-range implementation plan that will help our region double the number of jobs accessible by transit in the region.

In addition, the region in conjunction with the Mid America Regional Council (MARC) furthered the transportation efforts by the 2017 Planning Sustainable Places (PSP) program. The PSP program continues the work of the Creating Sustainable Places initiative (supported by a HUD Regional

Sustainable Communities Planning Grant) and the region's Metropolitan Transportation Plan, Transportation Outlook 2040, to promote concepts consistent with sustainable communities and the advancement of site-specific and project-specific activities within the centers-and-corridors planning framework.

As part of the PSP efforts, the following AFFH regional entities received the following grants to further transit and employment for all residents including protected populations.

City of Independence

- U.S. Highway 24 Fairmount Business District Plan, \$72,000
- Truman Road Complete Street Redevelopment Plan, \$20,000

City of Kansas City, MO

- Midtown Complete Streets Corridor Plan, \$36,000
- Gillham Road Corridor Bike Connections Plan, \$72,000
- Independence Avenue Pedestrian Safety Improvements Study, \$36,000
- Troost and Prospect Right of Way Enhancement Plans, \$48,000
- Trail Nexus Study and Ordinance, \$36,000
- Through Kansas City Area Transportation Authority: Swope Area/Prospect Connectivity Study, \$135,000

Leavenworth

- Through Kansas City Area Transportation Authority Leavenworth Transit Plans \$37,000
 Unified Government of Wyandotte County/Kansas City, Kansas
 - Activity Center and Transit-Oriented Development Hub Plan, \$117,600
 - Cambridge Connector Feasibility Analysis, \$137,500
 - Kaw River Bicycle/Pedestrian Connector Bridge, \$120,000

KCATA is reconfiguring the 595 route to add reverse commute trips to New Century, Gardner and Edgerton with direct service from downtown KCMO. There will be six morning trips, seven evening trips and the first limited Saturday service in Johnson County. The service begins in April. There will be additional service connecting the 3 Trails Transit Center in south Kansas City, MO to New Century, Gardner and Edgerton which begins in July. Leavenworth will be applying for state rural transit funds to fund the two alternatives that were developed. One would be an on-demand/flex circulator for service within Leavenworth, the other would be a fixed route linking Leavenworth with Village West in UG. The Unified Government of Wyandotte County and Kansas City, KS has begun the GoDotte planning process to evaluate transportation in the County.

Goal 14: Develop informational materials for local governments and community organizations to use to educate the public about the need for affordable housing.

Status: The Regional Equity Network has discussed support for this goal. A meeting will be scheduled with the city representatives and the Regional Equity Network to discuss working together to advance this goal. The Unified Government of Wyandotte County and Kansas City, KS Public Health Department convened a Safe and Affordable Housing Task Force. This taskforce regularly hosts presentations and provides opportunities to the public to learn more about affordable housing.

Goal 15: Establish metrics to meet fair housing and affordable housing goals.

Status: Began discussions among the five local governments and MARC on possible metrics. Three metrics were proposed for review: measurement on the number of persons educated about fair housing and the number of fair housing complaints filed; steps to increase opportunities for affordable housing; and steps to create access to opportunities through transit and education/workforce development.

LOCAL FAIR HOUSING GOALS - Kansas City, Kansas

KCK1. Goal: Target the use of CDBG funds to support minor home repair for low-income, members of protected classes, and elderly homeowners to enable them to maintain their properties

Status: Review annually the feasibility of increasing CDBG and adding other resources to be allocated to the minor home repair program. This will be done as a part of the annual planning process and will begin in 2017. The Home Repair Program was reviewed during the UG annual budget process. The budget was increased by \$100,000 from the FY2018-2019 CDBG budget, which was adopted August 2, 2018, in order to increase the number of homes repaired that are owned by low income and members of protected classes, particularly the elderly. This increased funding level was maintained for the 2019-2021 budget years.

KCK2. Goal: Evaluate and, if necessary, provide resources to support low-income and protected class homeowners, especially the elderly and disabled, who may have property maintenance code violations, particularly in R/ECAPs who do not have the resources to make repairs on their own.

Status: The UG provided Livable Neighborhoods with some general fund resources to develop a program with coordination between the Livable Neighborhoods, Code Enforcement Division and the Community Development Department. If repairs are not eligible under the CD program, Livable Neighborhoods with work with neighborhood groups and other partners to determine resources to address code violations. For the 2019-2020 program year there was an increase in barrier removal projects— a subset of the Emergency Home Repair Program. These projects ensure that individuals are able to safely remain in their homes.

KCK3. Goal: Work with LISC to expand the resources in LISC's new Pre-Development Fund to support new or renovated housing in disadvantaged (R/ECAPs) neighborhoods in Kansas City, KS

Status: In 2017, working with LISC and learning from their initiative in Kansas City, MO, develop a strategy to create a Pre-Development Fund for Kansas City, KS. Raise funds in 2017- 2018 and begin to fund projects thereafter. LISC is in transition with the change of leadership. The UG County Administrator's office, along with the UG Community Development and Finance Departments has been working with Mutual of Omaha and Alt-Cap to create a business plan for a Development Fund for Kansas City, Kansas. In 2019, Mutual of Omaha changed ownership and this project is currently on hold while other avenues are explored.

KCK4. Goal: Evaluate KCK building codes to consider changes that enable more than the federal requirements for ADA compliance to be addressed in new housing construction and encourage universal design.

Status: KCK will evaluate their building codes to determine the extent to which the needs of disabled persons are addressed in new housing construction, and as needed, consider changes to the codes. In 2019 this process began. A new Director of Urban Planning and Zoning was hired and this process is ongoing. Including accessibility requirements for new housing will expand housing options for the disabled. The UG's Neighborhood Resource Center and Urban Planning and Zoning Departments will assess current building codes and recommend to UG commission changes that will enhance accessibility of new housing and encourage universal design. This process is ongoing.

<u>KCK5. Goal:</u> KCK will promote services, including career exploration, mentoring, and experiential learning to enable middle and high school students to better prepare for careers

Status: Promoting specific programs to connect youth of protected classes to college opportunities is a key way to improve access to opportunity.

The UG has been working with USD 500 to support its Diploma Place Program and other programs, such as the College Advising Corps, that low-income and minority students gain access to college. The city/county government will continue to support these initiatives and evaluate new approaches for local school districts.

<u>KCK6. Goal:</u> Local governments should adopt economic development strategies that target development, retention and expansion of firms and industries that provide good jobs — ones that both have low barriers to entry and provide clear career paths to a living wage.

Contributing Factors: Difficulty in accessing quality jobs

Status: In 2017 KCK, along with its economic development partners, will review its economic development policies and strategies to make sure it is focusing on quality jobs, and high wages with a career path in a growing industry.

In 2019, the UG Economic Development Department announced numerous projects that will focus on bringing new employment opportunities for Wyandotte County residents. One notable project being an agreement with URBN to develop a distribution center in Wester KCK. This development will include revisiting the public transportation in the area to increase accessibility of new jobs. URBN has committed to being an involved and positive force in KCK.

Focusing on creating and attracting quality jobs will help members of protected classes' access opportunity and quality housing. The UG already works with its economic development partners to create and attract jobs to the area. These partners will review its strategies and policies to see if they are focused on quality jobs, particularly as defined by the KC Rising initiative.

<u>KCK7. Goal</u>: Include evaluation of access to community resources for low income and protected persons into comprehensive planning processes

Status: 2017 develop a process to include access to resources for low income and persons of protected classes into local and comprehensive planning processes. Implement this process in 2018-2021.

The UG will foster more access to opportunity for protected classes by including this objective as a specific element in its planning processes. In 2017 the city and particularly its planning department will review its citizen participation process to include access to resources for low income and persons of protected classes into local and comprehensive planning processes. The city implemented this process in 2018.

Due to the COVID-19 crisis and restriction of in-person activities the UG has developed virtual tools for residents to remain engaged in the planning process.

KCK8. Goal: Adopt and implement complimentary mobility options such as walking, biking car sharing

Status: in 2017 the UG will review current mobility work with MARC and develop a modified strategy which will provide a blueprint for improvements through 2021. Increased mobility will aid members of protected classes connect with opportunity and housing options.

In 2020, the UG adopted a Complete Streets ordinance to ensure that pedestrian and bike options are considered in new street projects to ensure connectivity for Wyandotte County residents. In 2021 the UG began to GoDotte planning process to evaluation all transportation options and needs in Wyandotte County.

KCK - Other Discussion

The UG has adopted a Community Health Improvement Plan. As stated on the website, "the plan is used by the community, including governmental agencies and community partners, to set priorities, align resources, and coordinate a response to the results of a Community Health Assessment. The plan's steering committee, along with community members and stakeholders, using the findings and further prioritized the community's health concerns in to four strategy areas for the next five years. The strategy areas are: Education and jobs, Access to medical, dental, and mental health care, Safe and affordable housing and Violence prevention." The goals, objectives and strategies identified for each area will be implemented and the ensuing results will assist us in responding to several of the affordable housing goals listed above.

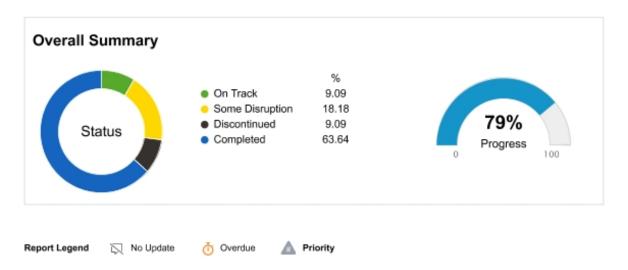

Mayor/CEO David Alvey issued a proclamation proclaiming the month of April 2019 as "Fair Housing Month" in Wyandotte County/Kansas City, Kansas on April 11, 2019.

The UG, along with MARC, the Whole Person, KC Communities for All Ages, and Kansas City Rebuilding co-sponsored the Fair Housing Accessibility First Policy Training hosted by MARC and U. S. Department of Housing and Urban Development on May 20, 2019. The training covered Fair Housing Act Accessibility Requirements, Disability Rights Laws, and Making Housing Accessible Through Accommodations and Modifications.

NRSA Report 10.1.20 - 9.30.21

Page 1

Narrative Update:

2020 was the fourth year in the Park Drive Neighborhood Revitalization Strategy Area Plan. The 2021 year will be the final year of the plan. As with most things, construction and improvement projects in the NRSA area have been delayed due to the COVID-19 pandemic and related effects such as business closures, increase in building material costs, lack of available contractors, and staff capacity. Additionally, there were many staff transitions that impacted the NRSA activities such as the vacancy of the SOAR Coordinator position and a change in the Direct of Parks and Recreation. Current projects should resume in late 2021 or early 2022.

NRSA / Park Drive Neighborhood:

Improve the quality of life in the Park Drive Neighborhood/NRSA through community engagement, education, and the strategic allocation of resources.

	%	#
On Track	6.67	1
 Some Disruption 	13.33	2
 Discontinued 	13.33	2
 Completed 	66.67	10

Benchmarks for Census Tract 422 or the Park Drive Neighborhood by 2021:

- Decrease property maintenance code violations in Census Tract 422 by 25% through education and collaboration (from 150 in 2016)
- Decrease vacant lots in the Park Drive Neighborhood from 14.4% to 3.6%
- · Decrease vacant homes in the Park Drive Neighborhood.
- · Decrease the delinquent tax revenue rate from 11.4% to 5%
- · Decrease the delinquent tax rate (by parcel) from 14% to 5%.
- · Improve sidewalk network, curbs and gutters, street pavement rankings, and ADA compliance
- · Improve parks

Owner: Wilba Miller

Action Step: 11

Update provided by Wilba Miller on Feb 26, 2020 19:19:34

Action Step 1.14.4: NRSA: Develop an area plan for the 18th Street corridor by the end of 2019. (Now the Central Area Master Plan) (100% completed)

Highlights and Completions: The Central Area Master Plan was accepted by the Board of Commissioners on October 29, 2020

Issues and Disruptions
