**Technical Notes**

Data were extracted from the Kansas electronic disease surveillance system (EpiTrax) on 02/07/2020. Case counts reported to public health. Diseases marked in dark blue indicate that only cases meeting the confirmed case definition were counted; all other diseases include cases that meet confirmed and probable case definitions.

A number in parentheses and italics indicates an ongoing investigation at the time of this report. All counts are subject to change and can increase or decrease as information becomes available.
